

PSIA-AASI Education Foundation Named Scholarship and Memorial Gift Guidelines

The PSIA-AASI Education Foundation provides education resources and training for professional ski and snowboard instructors and volunteers to enhance their personal growth, further their career paths in instruction, and ultimately improve their students' experiences on the mountain.

Below, please find three options to help support PSIA-AASI members.

Create a Named Scholarship – For gifts of \$50,000 or more, a named scholarship will be created for donors wishing to pledge this minimum amount. Donors will work with PSIA-AASI's executive team and a small subcommittee to determine guidelines and better understand how best to distribute funds to members. A long-term subcommittee of the Education Foundation will be created to review scholarships and work with PSIA-AASI to distribute funds and raise additional funds for this scholarship.

Donate in Memory or Honor of a Loved One (Current Named Scholarship) – For gifts of more than \$2,500, PSIA-AASI encourages donors to select from the existing scholarships PSIA-AASI currently offers:

- [Certification or Specialist Education Track Scholarship](#)
- [Nancy Oakes Hall Women's Scholarship](#)
- [Small Snowsports School Scholarships](#)
- [Veteran Workforce and Education Track Scholarship](#)

Donate in Memory or Honor of a Loved One (General Education Fund) – For gifts of less than \$2,500, PSIA-AASI encourages donors to provide support to the general Education Foundation fund. The general fund enables PSIA-AASI to pool the resources of many donors and to make awards wherever the need is greatest.

The impact of PSIA-AASI's Education Foundation would not be possible without your generous support. PSIA-AASI will recognize you and the individuals that your gift memorializes in its various communications channels every year.
