2020-21

WELCOME HOME

WHY OUR PROFESSIONAL INSTRUCTION COMMUNITY MATTERS MORE THAN EVER

Welcome back to winter! After the roller coaster of 2020, it feels like coming home. Even though many of us only ski or snowboard from late November to early April, “I’m a snowsports instructor!” is still the first thing we tell anyone who asks us what we do.

Winter is where we find our community. Our family. Our favorite memories and greatest joys. And if there is one thing we learned this past year, it’s that we are stronger together than we are alone.

Even when last season ended early, we were there for each other, sharing conversations and virtual cocktail parties on our laptops, continuing our education via webinars that welcomed members from across divisions, and calling each other on the phone. That deep sense of community has always been at the heart of what it means to be a member of PSIA-AASI.

“It’s because of this community that there are no hurdles we can’t get over,” said PSIA-AASI Chair Eliza Kuntz. “Just look at how quickly we rolled with the early closures last spring and found new ways to connect and continue learning online. We have an ability to see what’s available to us and still keep things moving and fresh along the way.”

That bond, Kuntz said, provides the ultimate baseline for all instructors to build their own adventures this year.

**IT’S BECAUSE OF
THIS COMMUNITY
THAT THERE ARE NO
HURDLES WE CAN’T
GET OVER. – ELIZA KUNTZ**

“I think this is a really good time to write your own story with us, and your own adventure,” Kuntz said. “Take the education you have received and build that into your story. Share what we offer with non-members, and know that, despite everything that has gone on, PSIA-AASI is here to help you achieve all of your goals.”

It’s an invitation we extend to each guest we teach, sharing the skills and stories that will increase their enjoyment of every moment they spend outdoors. We help create memories of special moments spent skiing or snowboarding with all friends and families. Because we know how much that matters right now.

Welcome back to winter. Welcome home.

WATCH VIDEOS TO GET MORE INFORMATION

Look for the QR codes, then use your smartphone or tablet to access video that gives you a unique perspective on various products and official suppliers.

tiny.cc/FitnessGuide

HOW TO USE QR CODES – No app needed!

- 1. Enable.** In your phone's Camera settings, enable "Scan QR Codes."
- 2. Find.** Look for one of these codes.
- 3. Scan.** Frame the QR code in your screen and tap the link that pops up.

NEW ONLINE SHOPPING EXPERIENCE

Save time, shop online through PSIA-AASI's new e-commerce site. Shop whenever the mood – or need – hits you. Here's how:

1. Log in at thesnowpros.org
2. Click on **Shop**
3. Select **Catalog**
4. Shop by category to see product descriptions.

DIGITAL EDITION ALSO AVAILABLE

You can also access this catalog as a digital edition, with live links to products, Pro Offers, and supporting video.

PC or Laptop:

1. Log in at thesnowpros.org
2. Click on **Shop**
3. Select **Catalog**

App for Smartphone or Tablet:

- Find PSIA-AASI's "Snow Pro Library" app (available for Apple, Android, and Kindle Fire users) by searching for "PSIA," "AASI," or "Snow Pro Library" in the appropriate app store:
 - iTunes Store
 - Google Play Store
 - Kindle Fire
- Download the app and allow notifications.
- Within the app, click on the "lock" icon in the lower right corner of the catalog cover image. This opens a window in which you'll enter your PSIA-AASI log-in details:
 - Username = Your email address
 - Password = Your member number
- Once you're logged in, publications to which you have access – including **FREE**, member-only resources such as this catalog – have an arrow in the lower right corner. Tap the cover image to open the publication or click the down arrow to download it.

NOTE: For general guidance on fit, this catalog references men's and women's sizing options, with related sizing charts. PSIA-AASI means no offense to members who may not identify themselves in binary gender terms.

OFFICIAL SUPPLIER

OFFICIAL SUPPLIER

This symbol identifies PSIA-AASI Official Suppliers. In addition to offering great products at member-specific pricing, these extraordinary partners make contributions to PSIA-AASI that help keep dues low and support your education programs. Look for this designation while you shop. It's a sign of quality and commitment to your association... and to you.

SAVE MONEY

With Member-Only Pricing

Your membership pays for itself through significant savings on education materials, apparel, and other gear you need to succeed. This catalog is your go-to resource for hard-to-find, hand-selected products. Members also get great deals on skis, snowboards, and other gear through tiny.cc/ProOffers.

PSIA-AASI Offers Lots of Education Options

Not all people learn the same way - and that goes for you as well as the students you teach. PSIA-AASI offers you a wide variety of education resources to help:

- › Enhance your professional development.
- › Achieve your certification goals.
- › Connect with your guests at a deeper level.
- › Expand your opportunities as a marketable snowsports teacher.

Full descriptions of resources - including available formats - appear in the following pages. Many provide access to supplemental video that helps the content come alive.

E-LEARNING COURSES

Expand your digital learning through a variety of e-learning courses you can take on any platform. Log in and check out the current offerings at: tiny.cc/ELearningCourses.

AASI/Burton Riglet PE Course

FREE | Access at thesnowpros.org

AASI and Burton teamed up to create a fun and engaging environment - on and off snow - for kids 12 and under to find success with snowboarding. This course is geared to kindergarten through second-grade physical education (PE) teachers but has great takeaways for parents and snowsports instructors too.

ACL Strong

\$85 | Access at thesnowpros.org
CEUs: 2

tiny.cc/ACLStrongIntro

Protect your knees and teach longer with this specialized exercise plan. The ACL Strong course guides you through a 4-week progression (plus 2 bonus weeks) with exercises that teach you why knee injuries occur, how to protect yourself long-term, why technique matters, and how to be more aware of your body alignment and position.

Alpine Movement Analysis

\$20 | Access at thesnowpros.org
CEUs: 1

This course shows you how to observe and apply movement analysis practices using ideal versus real characteristics. Create accurate and relevant comparisons of skiing performance to body movements to help your students improve.

The Alpine Skiing Fundamentals

\$40 | Access at thesnowpros.org
CEUs: 2

tiny.cc/AlpineFundamentalsIntro

This course presents an in-depth review of the Alpine Skiing Fundamentals, along with a look at their history and development. Learn how the fundamentals bring the Skills Concept to life to design better learning experiences.

Children's Specialist 1 Knowledge Review

FREE | Access at thesnowpros.org

tiny.cc/ChildrensSpecialistIntro

Applying knowledge of children's development to teaching snowsports will help you be a more effective and successful snowsports instructor. The Children's Specialist 1 Workbook has been turned into an e-learning course that's required before taking the on-snow Children's Specialist 1 exam.

Course For New Instructors

FREE | Access at thesnowpros.org

Whether you're interested in becoming an instructor or just getting your teaching career started, this course covers the basics. It offers modules that offer invaluable insight into teaching and learning theories, working with students, and safety.

Delivering the Beginner Experience - Alpine, Snowboard, and Cross Country

FREE | Access at thesnowpros.org

Delivering the Beginner Experience is available for three distinct teaching disciplines - alpine, snowboard, and cross country. Topics include the importance of beginner lessons, how to negotiate the rental shop, introducing yourself to the guest, and how to offer a great beginner experience.

GAIN WISDOM THROUGH WEBINARS

Webinars are a great way to boost your professional development, and you now have **TWO** ways to participate:

- › Check out these event calendars to register for webinars: tiny.cc/UpcomingWebinars
- › Access PSIA-AASI micro courses and recorded webinars at tiny.cc/PSIAAASIRecordedWebinars. Be sure to log in to see all offerings.

FIRST CHAIR PODCAST

Expand your professional knowledge with PSIA-AASI's First Chair Podcast, featuring interviews with industry stakeholders, PSIA-AASI National Team members, and other key educators. Hear updates on all-things skiing, riding... and teaching. Subscribe – for **FREE** – through these channels:

- ▶ iTunes [tiny.cc/FirstChair_iTunes]
- ▶ SoundCloud [soundcloud.com/snowpros]

Fitness For Snowsports

#139 | Print | \$19.95
 Digital | **FREE** to members!
 (Accessed at thesnowpros.org or the Snow Pro Library App)

tiny.cc/FitnessGuide

Teaching snowsports is an athletic endeavor, and instructors must be physically fit for optimum performance. This resource offers guidance for a fitness training regimen that promotes improved movement and body longevity for snowsports instructors.

CORE RESOURCES FOR ALL DISCIPLINES

Teaching Snowsports Manual

#109P | Print | \$34.95
 #109D | Digital | \$20.00
 #109B | Bundle | \$44.95
 #109A | Audiobook | \$9.95

This manual covers communication, interpersonal and intrapersonal skills, effective teaching, and a practical, multi-discipline approach to presenting technical material. A perfect companion to *Core Concepts for Snowsports Instructors*, the *Teaching Snowsports Manual* is a must-have resource, regardless of the discipline or lesson specialty you teach. 6 x 9". 262 pages.

Core Concepts For Snowsports Instructors

#126 | \$24.95

A deep-dive into how people learn – with insights on enduring education models and the learning environment – *Core Concepts* provides a solid foundation for creating quality lessons. 8½ x 11". 90 pages.

Guide for New Instructors

FREE PDF available at thesnowpros.org

Designed to complement the E-Learning Course for New Instructors, this downloadable PDF – updated in 2019 – offers a deeper dive into the ideal knowledge base for new instructors. It covers professionalism and provides in-depth information on teaching, learning, and safety.

The Matrix

#001 | **FREE** to members!
 Accessed at thesnowpros.org

The Matrix contains the most current ski and snowboard educational video content, covering all disciplines, a wide variety of terrain and conditions, exam-assessment activities, teaching examples, movement analysis tips, educational presentations, and much more. Log in to watch videos at thesnowpros.org/thematrix.

TECHNICAL MANUALS... INCLUDING VIDEO!

1 Adaptive Alpine Technical Manual

#105 | Print | \$34.95
 #106 | Digital | \$20.00
 #108 | Bundle | \$44.95
 #105A | Audiobook | \$9.95

tiny.cc/AdaptiveAlpineManual

Build a solid foundation for helping students with disabilities experience freedom on one ski, two skis, or sit-ski equipment. Covering assessment, equipment, and progressions for various student categories, this manual is a must-have for all adaptive instructors. 6 x 9". 230 pages.

2 Alpine Technical Manual

#124 | Print | \$34.95
 #114 | Digital | \$20.00
 #134 | Bundle | \$44.95
 #144 | Audiobook | \$9.95

tiny.cc/AlpineTechManual

This manual defines fundamental concepts behind the diverse demands of modern skiing. A renewed look at the science of skiing adds depth and clarity to the technical message. 6 x 9". 158 pages.

NOTE: The *Alpine Technical Manual* – in all formats – now includes an appendix on the *Alpine Skiing Fundamentals*. If you purchased the digital edition before January 30, 2019, access the Snow Pro Library app (see page 1) to download the updated manual on your device. Digital purchases viewed by computer automatically update.

2a Alpine Technical Manual Appendix: Alpine Skiing Fundamentals

#124X | **FREE** plus S&H

Want the 8-page *Alpine Skiing Fundamentals Appendix* as a stand-alone resource? You can get it for **FREE** (plus shipping and handling costs) at thesnowpros.org.

2a

3 Cross Country Technical Manual

#123 | Print | \$34.95
 #113 | Digital | \$20.00
 #143 | Bundle | \$44.95

tiny.cc/XCTechManual

This is your trail pass to classic and skate skiing success, with information on the Cross Country Technical Model, teaching concepts, equipment, waxing, and more. 6 x 9". 160 pages.

4 Freestyle Technical Manual

#102 | Print | \$34.95
 #103 | Digital | \$20.00
 #104 | Bundle | \$44.95

tiny.cc/FreestyleTechManual

This manual offers invaluable insight into concepts and progressions for teaching freestyle. Learn how to break down complex maneuvers into simple parts to create innovative lessons for skiers and snowboarders. 6 x 9". 248 pages.

5 Snowboard Technical Manual

#128 | Print | \$34.95
 #118 | Digital | \$20.00
 #138 | Bundle | \$44.95
 #128A | Audiobook | \$9.95

tiny.cc/SnowboardTechManual

Whether you're new to teaching or a seasoned veteran, this manual will boost your technical knowledge of snowboard instruction. It's the perfect resource to expand your teaching, movement analysis, and riding skills. 6 x 9". 148 pages.

6 Telemark Technical Manual

#127 | Print | \$34.95
 #117 | Digital | \$20.00
 #137 | Bundle | \$44.95

tiny.cc/TelemarkTechManual

This manual is the definitive guide to teaching telemark skiing. It's grounded in the fundamentals common to telemark and alpine skiing *and* those that set telemarking apart. 6 x 9". 118 pages.

Kids' Activity Book **NEW**

#166 | Order – and see single-unit and bulk pricing – at thesnowpros.org

The *Kids' Activity Book* uses games, puzzles, and coloring to teach kids how to have fun and be safe on the mountain. Illustrated by PSIA-AASI member, award-winning artist, and *A-B-Skis* illustrator Nathan Jarvis, it offers resorts, instructors, and parents a resource that engages children in learning and play to build an emotional connection to snowsports. 8.5 x 11". 24 pages + memory card insert.

 **SPECIALIST RESOURCES**

Children's Instruction Manual, 2nd Ed.

#264 | \$24.95

Learn how to work with preschoolers through adolescents, with insight on teaching theory and practical information on how children think, feel, and move. Includes age-specific tips and exercises for alpine skiing, cross country skiing, and snowboarding. 8½ x 11". 128 pages.

Children's Alpine Teaching Handbook

#161 | \$22.95

Produced in cooperation with the Vail and Beaver Creek Ski and Snowboard Schools, this pocket-sized handbook describes playful exercises to enhance learning adventures for children of all ages. Includes freestyle objectives. 4¾ x 6¼". 314 pages.

Children's Ski and Snowboard Movement Guide

#153 | \$6

This waterproof booklet highlights common patterns in children's skiing and riding, and helps you guide children toward more efficient, developmentally appropriate movements. 3½ x 4½". 28 pages.

Captain Zembo's Ski & Snowboard Teaching Guide For Kids, 2nd Ed.

#107 | \$9.75

This book by John Alderson, a.k.a. Captain Zembo, is filled with games and strategies for teaching kids to ski and snowboard. A must for new instructors and a classic for experienced instructors. 8½ x 11". 33 pages.

 **FREESTYLE**

Freestyle Technical Manual (See page 4)

Be sure to check these PSIA-AASI offerings for more discipline-specific resources:

- ▶ E-Learning Courses (see page 2)
- ▶ The Matrix (see page 3)
- ▶ Tip of the Day Cards (see page 6)

4 WAYS TO SHOP

1. Order at thesnowpros.org
2. Order by phone, 303.987.9390
3. Fax your order to 303.987.9489
4. Mail in the order form in this catalog (additional forms can be downloaded from thesnowpros.org). Please note that paying by credit card is preferred over checks.

 **ALPINE**

Alpine Technical Manual (See page 4)

Adult Alpine Teaching Handbook, 2nd Ed.

#120 | Print | \$24.95
 #110 | Digital | \$20.00
 #130 | Bundle | \$34.95

Produced in cooperation with the Vail and Beaver Creek Ski and Snowboard Schools, this pocket-sized handbook outlines exercises and progressions to help accelerate student learning and includes freestyle tips. A great companion to the *Alpine Technical Manual*, it includes video for easy on-hill reference during lessons. 4¾ x 6¼". 282 pages.

Tactics for All-Mountain Skiing

#149 | \$19.50

In this comprehensive book, PSIA Alpine Team alumnus Chris Fellows delivers valuable advice on the tactics of skiing all types of terrain, including moguls, steepes, powder, chutes, and ice. 7 x 10". 108 pages.

Visual Cues to Effective/Ineffective Skiing, 2nd Ed.

#174 | \$7

Developed by the PSIA Alpine Team to offer insight on "real versus ideal skiing," this waterproof card set uses clear images and descriptions to identify efficient movement patterns for functional skiing as well as common causes of inefficient skiing. 3½ x 5½".

Visual Cues to Effective/Ineffective Teaching

#17208 | \$7

These six waterproof cards use images and descriptions to identify effective as well as ineffective instructor traits relating to creativity, communication, knowledge, and process. 3½ x 5½".

 **CROSS COUNTRY**

Cross Country Technical Manual (See page 4)

 **SNOWBOARD**

Snowboard Technical Manual (See page 4)

Snowboard Teaching Handbook, 2nd Ed.

#121 | Print | \$24.95
 #111 | Digital | \$20.00
 #141 | Bundle | \$34.95

With drills, exercises, and progressions for teaching people of all ages how to snowboard, this pocket guide – developed with the Vail and Beaver Creek Ski and Snowboard Schools – builds upon concepts and video in the *Snowboard Technical Manual*. 4¾ x 6¼". 358 pages.

 **TELEMARK**

Telemark Technical Manual (See page 4)

Adaptive Alpine Technical Manual (See page 4)

Adaptive Instruction Supplement: Diagnoses & Medication Classifications

#105S | Print | \$14.95
 #105SD | Digital | **FREE** to members!
 (Access through the Snow Pro Library App)

This resource – available as a free digital download and for purchase in print format – supplements the *Adaptive Alpine Technical Manual* by providing additional content on common diagnoses and medication classifications that may factor into the decisions you make with your students. It also offers links to trustworthy diagnosis-specific tools that can help guide your instruction.

Fundamental Mechanics of Alpine Skiing Across Adaptive Disciplines

FREE | Access at thesnowpros.org
 #112 | Print | \$9

Produced with the support of Disabled Sports USA, this reference guide looks at each of the five fundamentals of alpine skiing as they relate to two-, three-, and four-track skiing, as well as mono- and bi-skiing. It gives instructors a great resource for comparing what they may know about teaching one discipline to teaching another with which might not be as familiar.

Adaptive Snowboard Guide

FREE | Access at thesnowpros.org

Presents a diverse, creative, and unique collection of cross-over adaptive snowboard teaching techniques, represented by an array of talented instructors. This resource greatly increases and advances the possibilities and options for adaptive students to find success as snowboarders.

Adaptive Snowsports Instruction

FREE | Access at thesnowpros.org

A helpful resource for alpine, snowboard, and cross country adaptive instruction, this legacy manual describes adaptive equipment and skiing/snowboarding techniques, covers developments in stand-up and sit-down sliding methods, and serves as an important reference on physical, cognitive, and developmental disabilities.

Tip of the Day Cards

Extend the learning partnership well into après by sharing PSIA-AASI's Tip of the Day cards (sponsored by PSIA-AASI Official Automotive Supplier Volkswagen). These 4 x 6" cards have helpful advice for good skiing/riding in a variety of terrain, room to write your own tips for individual students, and slots for your business card.

- 1 Adaptive #F22 | Packages of 50 | **FREE** plus S&H
- 2 Alpine Skiing #F27 | Packages of 50 | **FREE** plus S&H
- 3 Children's Skiing #F23 | Packages of 50 | **FREE** plus S&H
- 4 Cross Country Skiing #F26 | Packages of 50 | **FREE** plus S&H
- 5 Freeskiing #F29 | Packages of 50 | **FREE** plus S&H
- 6 Freestyle #F24 | Packages of 50 | **FREE** plus S&H
- 7 Snowboarding #F28 | Packages of 50 | **FREE** plus S&H
- 8 Telemark Skiing #F25 | Packages of 50 | **FREE** plus S&H

These 4 x 6" *Tip of the Day* cards offer a great way to personalize your lesson. Each card has helpful advice for good skiing/riding in a variety of terrain, room for you to write your own tips for individual students, and slots for your business card.

ADD YOUR INFO AND RESORT LOGO TO TIP OF THE DAY CARDS

Customize your Tip of the Day cards with your personal information and resort logo. Go to tiny.cc/SnowProsToolkit to:

1. Visit PSIA-AASI's Print Store [nationsprint.com/clients/psia/]
2. Log in, using
 - Email: Marketing@thesnowpros.org
 - Password: SnowPro123!
 - Select "I am a returning user" and "Continue"
3. Select "Start a New Order"
4. Customize your cards
5. On the shipping page, include your name and email address as the requestor
6. Pay with your credit card
7. Place your order
8. Start marketing yourself AND your ski or ride school!

Base prices are as follows (1 pack = 50 cards):

- 1 pack - \$65
- 2 packs - \$80
- 3 packs - \$95
- 4 packs - \$105

NOTE: YOU CAN USE THE SAME ACCOUNT TO ORDER CUSTOMIZED BUSINESS CARDS!

THE BIG PICTURE

HOW YOUR IMPACT CAN EXTEND BEYOND THE SLOPES

Each season, you connect many people to the outdoors and introduce your students to new skills to help them create lifelong adventures through education. You also play an integral role in an even wider community – one that works to protect the very snow we slide on, shares information on how to live more sustainable lifestyles, and grows the sport for future generations.

This summer, PSIA-AASI partnered with Protect Our Winters (POW) to drive climate advocacy education initiatives for the winter sports community. The partnership gives you and your fellow PSIA-AASI members an opportunity to use tools and resources to share messages about the impacts of climate change on the winter environment.

JOIN CLIMATE-CHANGE CONVERSATION

PSIA-AASI and POW are working together to help educate all snowsports enthusiasts about programs and guidelines to help mitigate climate change so skiers and snowboarders can enjoy long winter seasons.

“We’re excited to partner with POW so members can learn more about climate change,” said PSIA-AASI Chief Executive Officer Nicholas Herrin. “We want to be leaders in the cultural shift of educating skiers and snowboarders on the immediate action needed to combat climate change.”

The partnership is the logical next step to the PSIA-AASI’s Sustainability Policy, approved by the PSIA-AASI Board of Directors in 2018, which laid the groundwork for how the association acts on climate change to reduce its impact on the snowsports industry.

PRESERVE THE WINTER ENVIRONMENT

PSIA-AASI’s sustainability policy focuses on communicating, through its publications (like this one), messages that educate and inform association members on why developing a sustainable professional and personal lifestyle can positively influence a snowy winter environment. Visit tiny.cc/SustainabilityAtPSIAAASI to learn more about how you can be more informed and involved in this important topic.

A winter environment that sustains snow is crucial to the future of skiing and snowboarding, the profession of snowsports instruction, and, ultimately, your way of life and opportunities within the snowsports industry. Whether it’s introducing a beginner to the thrill of sliding for the first time, providing disabled athletes with expanded freedom of motion, or giving prospective and current competitive athletes the extra insight they need to reach the podium, you are the key to helping others enjoy the sport, and snow is the stage you perform on.

Here’s to keeping the stages open.

tiny.cc/SustainabilityAtPSIAAASI

We are excited to welcome The North Face (TNF) as a PSIA-AASI Official Supplier! TNF brings an innovative new selection of product to the catalog to keep you comfortable in any condition. This renewed partnership promises to offer a new level of collaboration with PSIA-AASI members, with future opportunities to create a line of gear specifically suited to snowsports instructors. The North Face starts the design process with input from their athletes, creates product from the best materials available, tests in the real world, then adapts and innovates – providing the best gear for their athletes and the modern-day explorer.

SIERRA PEAK DOWN

The Sierra Peak collection is ideal for layering and everyday cold-weather wear. Available as a jacket, hoodie, or vest, these garments feature 800-fill goose down (which offers superior warmth yet remains extremely compressible) and a highly water- and wind- resistant Windwall nylon ripstop shell. They stow in a hand pocket with a carabiner loop. Slim fit.

Sierra Peak Jacket **NEW**

- #NM100 | Men's S-XXL | Black | PSIA | \$124
- #NM101 | Men's S-XXL | Meld Grey | PSIA | \$124

- #NW114 | Women's M-L | Black | AASI | \$139

Eco Nupste Jacket and Vest **NEW**

- #NM122 | Men's Jacket S-XL | Brandy Brown/Root Brown | \$129
- #NM123 | Men's Vest S-XXL | Hawthorne Khaki/Utility Brown | \$92
- #NW119 | Women's Jacket XS-L | Maroon Purple/Root Brown | \$129
- #NW120 | Women's Vest XS-L | Hawthorne Khaki/Utility Brown | \$92

GOOSE DOWN

THERMAL INSULATION

Using only the highest quality goose down in all of its products, The North Face tests each lot of down at three stages of production for loftiness, moisture resistance, and ability to regain loft after compression. The fill power of goose down is an indicator of two important features: warmth-to-weight ratio and compressibility, both critical to retain warmth and promote comfort. True fill power is measured by placing one ounce of goose down in a graduated cylinder and measuring the volume the down occupies in cubic inches. The North Face products are insulated with exclusive, high-fill power goose down ranging from 550 to 900 fill, which represents the highest-quality down commercially available.

BENEFITS

- Superior warmth and comfort
- Lightweight insulation
- Increased loft than lesser-fill downs (900- and 800-fill only)
- Highest quality, high-fill power goose down

A TNF classic, Nupste down garments stand the test of time. These limited-edition, eco-friendly, and highly technical jackets and vests – brought back in retro colorways – are made almost entirely from recycled materials. Sold with no logo to help assure greater availability, we're happy to provide a PSIA or AASI patch with purchase or, for a small fee, apply the logo of your choice. After placing your order online, email memberservices@thesnowpros.org or call 303.987.9390 to indicate your preference.

THERMOBALL ECO
ECO-CONSCIOUS WARMTH

A 100% post-consumer recycled polyester, ThermoBall™ Eco is “The New Synthetic Alternative to Down.” These high-performance parkas, jackets, hoodies, and vests provide the light-weight functionality of a standard down jacket with the added wet-weather insulation of down alternatives. Retains loft and traps heat, no matter how wet your environment is. Unlike traditional, continuous-filament synthetic insulations, the small, round PrimaLoft® synthetic fiber clusters closely mimic down; trapping heat within small air pockets to retain warmth.

ThermoBall Eco Hoodie NEW

PERSONALIZE YOUR PURCHASE:
ADD YOUR NAME WITH EMBROIDERY PROGRAM

For an extra \$30, add up to two lines of embroidered custom text to any top from The North Face; just choose the “Custom Embroidery” option in the online catalog – at tiny.cc/PSIAAASICatalog. After placing your order online, please email memberservices@thesnowpros.org or call 303.987.9390 to let our Member Services team know how you would like the text to read. For example, you can put your name on one line and your hometown, resort, instructional discipline, or even an inspirational phrase on the other. Get creative, but please keep it to 20 characters per line or less.

Summit L3 Ventrix Hoodie NEW

Base Camp Duffel M Bag NEW

#B100 | TNF Black/TNF White | \$65

The burly Base Camp Duffel is made from a durable and waterproof laminate material. The 71-liter capacity provides ideal storage for all of your on-hill gear or extended weekend trips.

FUTURELIGHT

The North Face's Futurelight™ fabric features the company's most advanced breathable-waterproof technology. Innovative and rigorously tested waterproofing is provided by an ultra-thin nanomembrane that creates airflow for better breathability while withstanding the harshest weather conditions. The fabric is soft, lightweight, and nimble for movement without constraints. Thinking toward the future, the face and back layers are sustainably crafted using 90% recycled materials.

SKI AND SNOWBOARD PANTS

Snow Cargo Pant

#PM103 | Men's S-XL | Black | \$210

#PW103 | Women's M-XL | Black | \$210

When The North Face decided to make a uniform pant for instructors, they started by approaching the instructors at Whistler Mountain B.C. After a year of development and a season of testing on one of the best mountains in the world, they are ready to make this pant available to the membership of PSIA-AASI. Features include Futurelight 150d fabric, an adjustable waist, kick patches, a gusseted crotch, two side cargo pockets, two front hand pockets, and side venting. Regular fit.

THE NORTH FACE

ENCOURAGES YOU TO 'NEVER STOP EXPLORING'

With PSIA-AASI's announcement this summer that The North Face is the association's new official outerwear and base-layer sponsor, their mutually aligned missions – "Create Lifelong Adventures Through Education" and "Never Stop Exploring" reveal the partnership to be a perfect fit.

With more than 100 years of combined experience celebrating the outdoors with proven leadership, top-level products, and impeccable education, The North Face will offer PSIA-AASI's growing network of instructors with the industry's most innovative performance gear.

Through this sponsorship, PSIA-AASI will outfit its national team and give you special access to apparel engineered to work flawlessly in all outdoor endeavors. Discounts on The North Face gear and apparel are available to you and your family and friends.

"This partnership will give our members access to the best gear to explore the mountain environment while they train the next generation of skiers and snowboarders," said PSIA-AASI CEO Nicholas Herrin.

It's the shared commitment to educating and developing outdoor enthusiasts that motivated PSIA-AASI to work with The North Face. "Ski school programs are a foundation of great mountain athletes," said Scott Mellin, global VP of mountain sports at The North Face. "Safe, well-organized entry into the sport is imperative to ensure a quality experience and retention of the next generation of mountain athletes. We're investing in this mission by equipping today's instructors with the best gear so they can do their job in maximum comfort and protection."

TEAM MEMBERS TAKE A TEST RUN

As soon as the partnership was announced, PSIA Cross Country Coach Emily Lovett, AASI Snowboard Team member Chris Rogers, PSIA Alpine Team members Jonathan Ballou and Josh Fogg, and Fogg's wife Molly, who is also a professional instructor, gathered in Aspen, Colorado, to get a first look at some of the new gear, participate in a photo shoot, and share their thoughts about how all snow pros will benefit.

Learn more about the partnership between PSIA-AASI and The North Face in this First Chair podcast with PSIA-AASI's Nicholas Herrin and TNF's Scott Mellin.

tiny.cc/TheNorthFacePodcast

THE PARTNERSHIP IS ABOUT MORE THAN GREAT JACKETS AND PANTS

"The North Face is a great company that produces exceptional products that align well with our membership," said Ballou. "I believe PSIA-AASI members will see increased benefit from the wide array of outdoor products, including tents, sleeping bags, and an extensive offering of camping and multi-sport products."

A SHARED VISION

"Looking at The North Face mantra, 'Never Stop Exploring,' from an educational angle is fun, since one of PSIA-AASI's teaching-skill fundamentals is 'Promote play, experimentation, and exploration,'" said Lovett. "PSIA-AASI's mission to 'Create Lifelong Adventures Through Education' lines up with *exploring* in that we learn best when we have an open mindset. Letting go of mental boundaries can allow our mind and body to *explore* new movements and create a new movement patterns in our skiing and riding. PSIA-AASI embraces experiential learning. It could easily be called 'explorative learning.'"

FRIENDS AND FAMILY ALSO BENEFIT

"While we have had great support from our suppliers in the past, a company takes it to a personal level when they include your family and household members in the discount program," said Fogg. "To me, it means they believe in their product so much that they know its value carries on beyond just the demands of our jobs and also appeals to the lifestyle we and our families have chosen. Being a snowsports instructor is more than a job; it's a lifestyle that requires the support of your family."

AN EXCITING OPPORTUNITY FOR COLLABORATION

"I'm excited about The North Face partnering with PSIA-AASI as our official outerwear supplier and am looking forward to more winter days to play in it," said Rogers. "The North Face supports adventurers who never stop exploring, and our mission as instructors and trainers is to connect new snowsports adventurers with lifelong exploration of skiing and snowboarding. I'm looking forward to seeing what we create together to promote snowsports and snowsports education."

Access your discounts for The North Face at tiny.cc/ProOffers.

With 140 years of experience, Dale of Norway has fine-tuned all elements of production – from raw wool to finished products. All components are sourced in Norway, including decorative elements such as pewter clasps, woven braids, and leather patches. This allows the company's skilled staff to pay close attention to every stage of the production process, which ensures the premium quality of each Dale of Norway garment.

Geilo Skirt

#19002 | Black | \$90

Made with 100% skin-soft merino wool in a stretchy rib-knit – this skirt features a traditional pattern for a classic Norwegian look. Slim fit.

Myking Sweaters and Hats **NEW**

- #19528 | Women's Sweater S-L | Light Charcoal / Off White / Navy | \$240
- #19529 | Men's Sweater M-XXL | Black / Raspberry / Off White | \$240
- #19530 | Hat | Light Charcoal / Off White / Navy | \$60
- #19531 | Hat | Black / Raspberry / Off White | \$60

Air-spun merino wool gives this sweater and matching hats a chunky, hand-knit texture with an incredibly soft and lightweight feel.

Founded in 2011 with the needs of ski and snowboard instructors in mind, Phunkshun Wear produces items that stand up to winter weather conditions and protect you from the elements. All manufacturing takes place in Denver, Colorado, and the crew at Phunkshun Wear cut, sew, and decorate the products themselves. This is how Phunkshun ensures that all products meet incredibly strict quality-control guidelines.

Thermal Neck Tube

#19052 | Black | \$20 **NEW**
 #19051 | SW Knit | \$20 **NEW**

Staying warm has never been easier. This face mask combines Phunkshun's DWR Phabric™ with an inner lining of Polartec Classic 100 Polar Fleece to keep you toasty all day.

Single-Layer Tube

#19562 | Herringbone | \$14 **NEW**
 #19053 | Oxblood Navy | \$14 **NEW**

The perfect mask for sun/wind protection and those hot days on the hill. A mesh-inspired Phabric construction allows ultimate breathability to help prevent goggle-fogging and keep you cool when the sun is shining down. The taller cut of this model allows you to tuck it under your helmet or beanie. UPF 50+.

PH (Personal Health) Face Mask

#19561 | S/M | Black | \$12
 #19561 | L/XL | Black | \$12

These masks are designed with an anti-microbial, wicking-mesh lining and an exterior shell made of a water-repellant antimicrobial spandex blend that is UPF 50. Available in two sizes; the S/M is 5" in height and the L/XL is 6" in height. Fit is adjustable on the ear straps. Features small PSIA-AASI logos.

These are not surgical- or medical-grade masks; they are recommended for personal hygiene.

BUY ONE, GIVE ONE

STAND UP TOGETHER

For every face covering sold, Denver-based Phunkshun is donating one to the Colorado Mask Project. These donated face coverings are distributed to essential workers and vulnerable populations.

NOTE: To see face coverings from other PSIA-AASI suppliers, please check the manufacturer sites accessed on the PSIA-AASI Pro Offers page at thesnowpros.org.

Terramar is a valued and engaged partner of PSIA-AASI, providing highly technical base-layer garments in this catalog and great support at several PSIA-AASI events every year. As a partner, Terramar is working closely with the ski and snowboard community to encourage individuals to hit the slopes in total confidence.

1 Climasense 1.0 TR Base Layers

- a #19514 | Transport Crew Top | Men's S-XXL | Black | \$18 **NEW**
- b #18991 | Transport Pant | Men's S-XL | Black | \$18

Feel great in all kinds of weather. This lightweight layer keeps you dry and warm in cold conditions, while still being an excellent option for sun protection in summer.

2 Climasense 2.0-2.5 TR Baselayers

- a #18675 | Thermolator Zip Neck Top | Men's S-XXL | Black | \$28
- b #18676 | Thermolator Pant | Men's S-XL | Black | \$22

- e #18681 | Cloudnine Zip Neck Top | Women's S-L | Black | \$22
- f #18682 | Cloudnine Tight | Women's S-L | Black | \$24
- g #19515 | Cloudnine 2.0 Print Scoop Top | Women's S-L | Black | \$22 **NEW**
- h #19516 | Cloudnine 2.0 Print Tight | Women's S-L | Black | \$22 **NEW**

The ideal choice for most winter sport enthusiasts, these garments provide warmth in moderate to very cold conditions, and the thermo-regulating properties will keep your body temperature consistent even as your activity level increases.

CLIMASENSE

Climasense™ is the company's multi-level product line of uniquely engineered garments with thermal-regulating (TR) technology that warms you when you're cold and cools you when you're warm. Designed to be worn as a layering system, base layers can be layered themselves. This allows you to customize your needs, based on your activity or environment. Terramar base layers come in 4 different warmth levels and each has their own unique function. Worn together, in whatever combination suits you best, they continue to wick sweat; hold heat; and protect you from cold, snow, and wind.

- d #19518 | ThermaFleece Tights | Black | Women's S-L | \$20 **NEW**

A step above even the warmest base layers, this product features a smooth face for easy layering with high-loft Sherpa fleece inside to trap heat.

WHY CHOOSE MERINO WOOL

Merino wool is super lightweight, soft, non-itchy, non-clammy, warm in the cold, and cool in the heat. Plus, it has a miraculous ability to resist odor.

THERMO REGULATION

Merino is a technically active fiber, which can gain and release heat depending on the wearer's next-to-skin environment and the external conditions. As merino absorbs moisture, it releases a small but perceptible amount of heat, and in hot conditions the reverse effect occurs.

ODOR MANAGEMENT

This type of wool doesn't have a lasting attachment to odor – often all it requires is a little airing out before the garment is ready to wear again. So, it doesn't require as much washing and you stay fresher longer.

SOFTNESS

Merino fibers are so fine that when they contact the skin they simply bend, providing softness and comfort.

MOISTURE MANAGEMENT

Merino fiber actively manages moisture by absorbing from the skin and then desorbing into the atmosphere, leaving you dryer and more comfortable. Also, a merino fiber absorbs up to 35% of its own weight in water at a high humidity before feeling wet. And the absorption properties are much greater than with most synthetics.

UV PROTECTION

Wool absorbs radiation throughout the entire UV spectrum, whereas synthetics try to boost the UPF protection by adding topical chemical treatments and/or including particles in the fiber. These applications protect the skin by either absorbing the radiation or reflecting it away. Merino naturally has these qualities and does not require extra treatment.

RESILIENCE

Wool fiber can be extended by more than 30% of its length without breaking. Merino wool also has an intrinsic wavelike structure called crimp, which contributes to its resilience.

OFFICIAL SUPPLIER

Created by the sports and lifestyles division of medi®, CEP compression products are developed in collaboration with renowned scientists and sports physicians, and are built to the exact standards for true, graduated compression. CEP products offer a range of Smart Technology and Clima Technology that make the sportswear more enjoyable for high-performance athletes and amateurs alike.

Ski Merino Compression Sock **NEW**

#19558 | Men's S–XL | Black/Anthracite | \$38
#19557 | Women's S–L | Black/Anthracite | \$38

This sock provides ultimate comfort through a fine merino and high-quality synthetic fiber mix, an asymmetric toe box and a perfect, stay put fit for ski and snowboard boots.

Ski Ultralight Compression Sock **NEW**

#19560 | Men's S–XL | Black/Dark Grey | \$38
#19559 | Women's S–L | Black/Dark Grey | \$38

This compression sock is 35% lighter than the Merino Compression sock, and is scientifically proven to optimize performance, injury-prevention, and recovery.

A manufacturer involved in all stages of production for more than 30 years, Lorpen takes full advantage of its freedom to innovate and offer maximum reliability in the quality of their products.

T3+ SKI POLARTEC WARM ACTIVE SOCK

#19022 | Unisex S-L | Black | \$39

This sock includes Polartec® fabrics strategically placed for optimal moisture management, thermal performance, and breathability. Full sole cushion, light cushion in the shin.

T2 Ski Midweight Sock **NEW**

#19554 | Women's S-M | Black/Turquoise | \$14

This sock features a unique merino-knit construction with shin padding and medium cushioning all around the foot for warmth and protection.

Ski Synthetic Sock

#19029 | Men's M-XL | Light Grey | \$12
#19030 | Women's S-M | Black | \$12

This full-synthetic, thin sock is made with ThermaFeel® yarn, which retains heat and is soft against the skin.

T3 Nordic Ski Light Sock

#19555 | Unisex S-XL | Dark Grey | \$12 **NEW**

This is a fantastic sock for cross country skiers who place a premium on warmth, padding, and dryness.

T2 Precision-Fit Ultralight Sock **NEW**

#19556 | Unisex S-XL | Black | \$12

This high-performance, ultra-fast drying Poly-Pro sock has ultralight cushioning for a precision fit in your boots.

T3 SKI SOCKS

- a #19023 | Men's M-XL | T3 Ski Superlight | Black | \$14
- b #19024 | Men's M-XL | T3 Ski Light | Black/Royal | \$15
- c #19553 | Women's S-M | T3 Ski Light | Black/Blue | \$15 **NEW**
- d #19026 | Men's M-XL | T3 Ski Midweight | Light Grey | \$15

Applying the best properties of merino wool, nylon, Primaloft yarn, and Lycra, these socks provide optimal moisture and temperature regulation.

- T3 Ski Superlight – Ultralightweight design has no extra cushion in the foot and light cushion in the shin. A combination of merino wool and PrimaLoft® yarn keep your feet dry.
- T3 Ski Light – Light sole, shin, and ankle padding for protection and warmth.
- T3 Ski Midweight – Moderate sole, shin, ankle, and heel padding for improved boot fit, and warmth.

Lorpen Size Chart

	S	M	L	XL
MEN	5-7	7.5-9.5	10-12.5	13+
WOMEN	6-8.5	9-11	11+	

For 80 years, Hestra has been developing gloves that provide warmth, protection, and dexterity in the most varied conditions. Today, their range comprises more than 400 styles because people – and their hands – are very different, especially when it comes to demands for design, comfort, warmth, and durability.

Freeride C-Zone NEW
 #18996 | Men's 3-Finger S-XXL | \$86
 #18997 | Men's Mitt S-XXL | \$86

This glove features full-leather construction with C-Zone™ technology, creating a durable, waterproof option for snowboarders and skiers. A short cuff allows access to your smartwatch and Wolfpaw construction adds dexterity. Tan and Brown.

Army Leather Couloir Glove
 #18959 | Men's S-XXL | \$80

This model easily transitions from all-day work glove to can't-live-without backcountry glove. It's fully waterproof with moderate insulation and the durable outer shell is made of cowhide/goat leather. Navy and Tan.

Army Leather Gore-Tex Glove
 #18998 | Men's S-XXL | \$119

Designed for the "every day" skier or snowboarder, this is the most durable Hestra glove in the catalog. It features GORE-TEX and a tough shell with a long cuff, creating a windproof, waterproof, and breathable option for instructors. A removable Bemberg liner moves moisture and traps warmth.

Army Leather Heli Glove
 #17224 | Men's S-XXL | \$80
 #18404 | Women's S-XL | \$75

This model is a modern-day classic with many functions, including a longer gauntlet that creates a weatherproof seal. It also has removable liners that dry fast, and a full-leather palm that offers long-lasting durability. Black and Off-White.

Army Leather Heli Mitt
 #18315 | Men's XS-XXL | \$80
 #18500 | Women's S-XL | \$75

In your quest for toasty hands, keep in mind that mittens are warmer than gloves. This mitt offers high-quality materials and construction that keep the elements out – and a fingerless, removable liner that traps heat. Black and Off-White.

Army Leather Heli 3-Finger Glove
 #17307 | Men's XS-XXL | \$80
 #18501 | Women's S-XL | \$75

The three-finger design of this model allows more dexterity than a mitten and provides more warmth than a glove. Black and Off-White.

Leather Balm
#18505 | \$8

Maintain your Hestra gloves' leather with Leather Balm. Treating your gloves one to two times a year will ensure they last for years to come.

Replacement Liners

- a #18502 | 5-Finger | Men's S-XXL | \$22
- b #18503 | 3-Finger | Men's S-XXL | \$22
- c #18504 | Mitt | Men's S-XXL | \$22
- d #18877 | 5 Finger | Women's S-XL | \$22
- e #18878 | Mitt | Women's S-XL | \$22

The liner that came with your gloves can pack out over the years, diminishing loft for insulation. You can revive some of that loft by keeping your liners clean, and you can also buy back-up or replacement liners for your Hestra Heli Glove, Mitt, or 3-Finger Glove. White.

Primaloft Extreme Replacement Liners

- a #18783 | 5-Finger | Men's S/M L/XL XXL/XXXL | \$40
- b #18784 | 3-Finger | Men's S/M L/XL XXL/XXXL | \$40
- c #18785 | Mitt | Men's S/M L/XL XXL/XXXL | \$36

This is a multi-layer Primaloft liner for very cold days. Made with a windproof, waterproof, and breathable polyamide ripstop material, it will get you through the coldest days. Offered for the Heli Glove, Mitt, and 3-Finger Glove. Machine washable. Black.

Touch Liners

- a #18875 | Touch Warmth | Men's S-XXL | \$24
- b #18876 | Touch Point Dry Wool | Men's S-XXL | \$18

An excellent base lining to wear under your winter gloves, both models have fingertips made of conductive material that allows you to use touch screens without removing your liners. The Touch Warmth liner features a soft, 70% Polyester/20% wool/10% Elastan Trico material. The Touch Point Dry Wool liners have a 78% polyester/22% wool Trico mix that layers easily and is excellent at moisture management. Works with most Hestra models.

Comfort Tracker XC Glove NEW

#19512 Men's S-XXL \$22

On the warmer end of the spectrum for cross country gloves, the Comfort Tracker includes a polyester lining and G-loft insulation for extra warmth, as well as a Neoprene cuff and stretch polyester in the palm. Machine washable.

Army Leather Extreme Mitt

#18960 | Men's XS-XXL | \$90

This is Hestra's warmest mitt for the deep-chill days or for those who need maximum protection from the cold. It's crafted with durable, proofed Army leather and a flexible softshell material. Can be combined with other liners. Black and Off-White.

Tantel Glove

#18403 | Men's M-XXL | \$16

A great everyday glove that just gets better with age. With durable-yet-pliable leather, this model is designed for those who work tough jobs in winter conditions. Natural and Black.

Kobolt Winter Flex C-Zone II Glove

#18962 | Men's M-XXL | \$19

Waterproof and breathable, these cold-weather goatskin work gloves offer lightweight insulation and an adjustable hook-and-loop closure. Tan and Black.

Omni Mitt

#18999 | Women's S-XL | Tan | \$75

This women's-specific model is a short, supple, and warm freeride mitten with clean design, made entirely of cowhide. It's insulated with incredibly warm, 100% polyester foam and lined with a soft Bemberg fleece. Also features a knitted cuff around the wrist and Hestra Handcuffs.

Omni Glove **NEW**

#19513 | Women's S-XL | Tan | \$75

This is a short and supple freeride glove with a clean design, made entirely of cowhide. It features a soft polyester lining and is insulated with warming G-loft polyester. Has a neoprene cuff with Velcro closure and handcuffs.

Fall Line Glove

#18871 | Men's S-XXL | Cork | \$86

#19511 | Men's S-XXL | Eco Cuir | \$86 **NEW**

Just like skiing or riding a fall line, these gloves take the most direct approach to performance, with external seams that create an unmatched fit and great pole grips as well as short cuffs that slide easily under your jacket sleeve. Made with soft leather that resists moisture and is very durable. Sizing runs small.

Eco Cuir is a trademark-protected cowhide that is tanned without the use of chrome or synthetic dyes. The leather is saturated with grease to better repel moisture. Its beautiful natural color develops a rich patina over time as the gloves are used.

WHAT'S THE WARMEST GLOVE?

The number-one question we get about gloves is "What's the warmest pair you carry?" Well, the warmth you seek depends on three things: the glove's insulation and moisture management... and your circulation.

If you have great blood circulation and your hands rarely get cold, look for a glove that has minimal insulation, maximum breathability, and good moisture management. This type of glove will keep your hands dry from the outside and effectively move perspiration from the inside.

If you have poor circulation and struggle to keep your hands warm, choose a glove or mitten that has maximum insulation and waterproofing. This allows the glove or mitten to do the work of keeping you warm by using insulation to trap heat and waterproof materials to keep out the elements. You can also use handwarmers as a helpful heat supplement.

To determine your glove size, measure around your knuckles with your hand flat (exclude the thumb). The number of inches, rounded to the nearest 1/4," equals your glove size.

Swany creates premium gloves and mittens, known for their comfort, freedom of movement, warmth, and durability. With more than 90 years of glove-manufacturing experience, Swany combines space-age technology and fabrics with expert craftsmanship and nature's most resilient materials.

1 Hawk Glove and Mitt

- a #18954 Men's S-XL | Glove | Black/Tan | \$84
- b #18955 Men's S-XL | Mitt | Black/Tan | \$84
- c #18956 Women's S-L | Glove | Black | \$84

The Hawk Glove and Mitt feature a full leather exterior shell with a waterproof/breathable laminate layer and the ideal amount of insulation for mid-winter days.

2 X-Change Glove

- #18327 Men's S-XL | \$64

For the best combination of quality and value, consider this fully waterproof glove, with leather in the high-abrasion areas and a durable and breathable soft shell on the back. Black.

3 La Down Mitten

- #18812 Women's S-L | \$69

Insulated with down, this mitten has proven to be one of the warmest we carry. Fully waterproof and breathable with a durable leather palm. Black.

4 La Sonna Glove NEW

- #19543 Women's S-L | \$69

Truly a dream to wear, with the softest liner available. Not lacking in performance, this glove's features include leather palms, moderate insulation, and hand warmer pockets. Black.

5 X-CELL II GLOVE

- #17248 Men's S-XL | \$94

A favorite of snowsports instructors, this may simply be the best-built and warmest full-leather, gauntlet-style glove you can own. Black.

6 PRO V FX-10R GLOVE

- #18462 Men's S-XL | \$39

The original spring glove! It boasts a form-fitting shape, articulated construction, and a breathable outer shell. Black.

7 TOASTER LEGEND MITT

- #18883 Men's S-XL | \$74
- #18884 Women's S-L | \$74

Instructors know it as the most durable and functional mitt made. Features full-leather construction with full-length waterproof zipper and an integrated glove liner. Black.

Swany Size Chart

	S	M	L	XL
MEN	7½-8"	8½-9"	9½-10"	10½-11"
WOMEN	6-6½"	7-7½"	8"+	

To determine your glove size, measure around your knuckles with your hand flat (exclude the thumb). The number of inches, rounding to the nearest ¼", equals your glove size.

With passion and years of industry experience, Leki produces unbeatable products by combining safety, comfort, and performance with appealing design. The continuous exchange of ideas with experts and professional athletes is further proof that the company values its role as an industry leader.

TRIGGER TECHNOLOGY

LEKI updated its Trigger technology with the new Trigger 3D grips, while the innovative PA Safety system remains on some models.

- Trigger 3D Grip:** The new Trigger 3D technology now has 220 degrees of range for release, making it even easier to engage with and release from the pole grip. The traditional Trigger Strap works with the 3D system, however with the grip upgrade the straps were updated too – with new materials that improve comfort and performance. These grips use a harness-style strap that securely fits around the outside of a glove and conveniently clicks into the pole grip. No more hassle of removing your pole straps from your wrists to ride the lift or perform tasks! Simply push the tabs on the top of the pole and remove your hand and the strap from the pole.
- Ski performance** is enhanced because the harness helps bring the poles back to center with less wrist movement, and power is transferred through the harness to the grip for pole plants. Safety-wise, the grip features a tension-spring, similar to the DIN tensioners in your bindings, with the new Intelligent 220° degree security system that releases the strap when a certain amount of force is applied.
- PA Safety System:** Innovative convenience and safety is also the mark of this design. When you pull up on the strap, it releases a tab on the grip that allows the strap to open, which makes for incredibly easy strap adjustment. When upward force is applied to the grip, the tab will pop open – allowing the strap to expand and your hand to escape, reducing the chances of injury to the wrist, arm, or shoulder.

1 Progressive Tune Leather Boa Glove

#18950 | Men's S–XL | Black | \$94

You'll love this glove's direct-to-pole connection with Trigger S integration and BOA adjustment. Durable and comfortable, it features a full goatskin leather shell and Primaloft insulation.

2 Griffin Tune Boa Gloves

#19019 | Men's S–XL | Black | \$104

This model's stretchy soft shell and durable leather provides excellent fit and dexterity. Includes Trigger S integration and BOA adjustment.

3 Griffin S Trigger S Gloves

a #18807 | Men's S–XL | Black | \$84

b #18808 | Women's S–L | Black | \$84

Made with an elastic soft shell and silky leather for a great fit, this glove also features Trigger S integration and a neoprene cuff that seals nicely around your wrist.

4 Xplore XT S Mitt

a #18952 | Men's S–XL | Tan/Black | \$72

b #18953 | Women's S–L | Black | \$72

The warmest mitt offered by Leki, this model features extra-high insulation volume for extreme temperatures, finger channels to effectively move moisture, a double gauntlet to trap heat, and pockets for handwarmers.

5 Nordic Tune Shark Boa Trigger S Glove

#18965 | Men's S–XL | Black/Red | \$80

This ultra-lightweight nordic race glove features BOA adjustment and a highly breathable Softspan outer and durable AX Suede palm.

Lightning 3D Gloves **NEW**

#19527 | Men's S–XL | Black | \$49

The newest Trigger 3D spring glove, this offering features a premium goatskin palm and fingers, breathable Netspan back, and Thinsulate insulation.

Leki Pole Size Chart

USER HEIGHT	SUGGESTED POLE LENGTH CM/IN
60"	105cm/42"
62-64"	110cm/44"
66"	115cm/46"
68-70"	120cm/48"
72"	125cm/50"
74"	130cm/52"
76"	135cm/54"

1 Peak Vario 3D **NEW**

#17314 | \$104

This is Leki's most versatile pole featuring the new Trigger 3D grip, an update to the Trigger S grip, which allows a release range of 220 degrees. With a 16mm aluminum upper shaft and 14mm carbon-fiber lower shaft, this model adjusts from 105 to 135 cm, letting you dial in your size and lock it into place with the new Speedlock+ system. Includes race and snowflake baskets. Black.

2 Carbon 14 3D **NEW**

#19521 | Black | \$94

The new Trigger 3D grip on this pole provides unmatched safety, comfort, and performance. The 14-mm full-carbon shaft is lightweight and extremely durable.

3 Carbon 14 3D Women **NEW**

#19522 | Black/Gold | \$94

This may be where the new 3D grip is most useful. With the extended range of release, it's even easier to click in and out. Features a high-performance 14mm carbon shaft and a soft, rubberized grip sized appropriately for a woman's hand.

4 Spitfire 3D **NEW**

#19523 | Blue/Mustard | \$75

One of Leki's most popular poles, the Spitfire is ideal for all-day freeskiing. It's a 16mm straight, aluminum pole with the new Trigger 3D strap and grip. Includes race and snowflake baskets.

5 QNTM

#19520 | Black/Blue | \$22

This is a modern aluminum pole, with an 18mm shaft and matte graphics. It features Leki's PAS soft grip and strap, a system that's comfortable, safe, and easily adjustable.

6 Neolite Airfoil Pole

#19017 | Black/Red | \$44

Made of high-grade HTS 6.0 aluminum and sporting an airfoil-shaped design, this is the strongest aluminum pole you will ever own. With the PAS soft grip and traditional strap, it's comfortable in the hand and easy to get in and out of the straps.

7 Elite Lady Ski Pole

19018 | Black | \$44

Offering the strength and durability every skier needs, this pole has a 14mm aluminum shaft and weighs only 178 grams with the grip (in the 115cm length). The PAS soft grip is slightly smaller, uses silicone to eliminate hand fatigue, and includes a traditional adjustable strap.

8 Helicon Backcountry Vario Pole

19016 | \$49

This pole is fully adjustable from 95-145cm and features full-aluminum construction (16mm upper and 14mm lower shaft), an AirErgo long grip, and a PA Safety grip.

BOLLÉ HELMET

INSTINCT MIPS

#18943 | S/M, M/L, L/XL | Full Black | \$104

The INSTINCT is a lightweight, super-comfortable helmet with superior performance for a full range of impacts. Features the MIPS Brain Protection System, which lets the helmet slide relative to the head, adding more protection against rotational motion caused by angled impacts. Also has a BOA closure system, adjustable ventilation, and detachable/washable earpads and lining. S/M: 52-54cm, M/L: 54-58cm, L/XL: 58-61cm.

RYFT MIPS

#19524 | S/M, M/L, L/XL | Full Black | \$64 **NEW**

RYFT is an innovative new helmet offering an Active Panel Ventilation system that allows the highest airflow ever achieved in a snow helmet, while still meeting the highest impact-protection norms. It is in line with Bollé's 100% MIPS commitment to brain safety. RYFT makes no compromise on fit and comfort, featuring the BOA Fit system, a lining with antimicrobial properties, and Fidlock magnetic buckles. S/M: 52-55cm, M/L: 55-59cm, L/XL: 59-62cm.

For more than 100 years, the Bollé name has been synonymous with the highest-quality performance and protection. All sunglasses and goggles offer your eyes 100% UV protection.

BOLLÉ SUNGLASSES

1 Python **NEW**

#19532 | Shiny Black Frame, HD Polarized Lens | \$60

These shades rock an aggressive look and pack all the performance features for high-output activities. Medium fit.

2 Tigersnake **NEW**

#19533 | Matte Cool Grey Frame, Polarized Brown Fire Lens | \$58

These sunglasses feature a large frame made of high-quality materials that keep the weight to a minimum. Large fit.

3 Frank **NEW**

#19534 | Matte Black Frame, HD Polarized Off-Shore Blue Lens | \$58

Here's a perfect choice for those who seek a modern shape with sharp angles and straight lines. Medium to large fit.

4 Molly **NEW**

#19535 | Dark Tortoise Frame, Brown Lens | \$46

So lightweight you won't even notice they're on (except for the fact that you're no longer squinting in bright sun), and so stylish you'll certainly get noticed. Small to medium fit.

5 Graphite

19005 | Matte Black Frame, TNS Lens | \$49

Bollé brings a mountaineering aesthetic back to the lineup! And these shades boast ergonomic fit, great ventilation, and maximum protection. Medium to large fit.

6 Kayman

#18930 | Matte Black/Blue Frame, Polarized Offshore Blue Lens | \$56

The Kayman features Thermogrip rubber on the temples, nose pads, and inside of the frame to assure a secure fit even during intense activity. Medium fit.

LENS INFORMATION

Bollé offers a wide range quality lenses, many suited for specific sport adventures. Once you've selected some styles you like, look here to learn more about the lens offered in each frame. Each style is offered in other frame color and lens combinations through the Bollé Pro site at tiny.cc/ProOffers.

BOLLÉ SUNGLASSES

- ▶ **BROWN LENS:** Ideal for sunny conditions, brown lenses amplify color contrast and deliver superior visual definition.
- ▶ **HD POLARIZED OFF-SHORE BLUE LENS:** Made for the water but at home in bright-light situations. The grey base color maintains natural color perception, with blue mirror and HD polarized features for best performance.

- ▶ **HD POLARIZED TNS LENS:** By infusing a specific red pigment into the HD polarized lenses, Bollé is able to reinforce the wavelengths of the red color. This brings a higher level of contrast and improves depth perception, without altering the base tint of the lens. Polarized lenses cut glare and bring out definition.
- ▶ **POLARIZED BROWN FIRE LENS:** Ideal for sunny conditions, this brown lens amplifies color contrast and delivers superior visual definition.
- ▶ **TNS LENS:** This is Bollé's most popular grey lens, and ideal for all outdoor activities. The grey base color is optically comfortable and provides true color definition.

BOLLÉ GOGGLES

1 Nevada Neo NEW

#19536 | Black Matte Frame, Phantom+ & Lemon Lens | \$149

The first magnetic goggle Bollé has offered! With the latest frame and lens technology, quickly switch between lenses and keep them in place with the EyeLatch lock. Large fit.

2 Nevada

- a #19538 | Black Cross Matte Frame, Phantom+ Lens | \$104 NEW
- b #19539 | Black and Green Diagonal Frame, Phantom Green Emerald Lens | \$92 NEW
- c #19540 | Matte Sand Frame, Sunrise Lens | \$54 NEW

This is a cylindrical, frameless goggle with an extra-large field of view for optimal visual clarity. Large fit.

3 Freeze

#18207 | Black Frame, Clear Lens | \$18

This simple goggle offers a clear, double-polycarbonate lens that's perfect for nighttime use. Medium fit.

4 Maddox

#19013 | Matte Black Corp Frame, Photochromic Green Emerald Lens | \$70

Another great option from Bollé; the frame features bold lines coupled with the latest lens technology. Medium fit.

5 Supreme Over The Glasses

- a #19541 | Black Corp Matte Frame, Phantom+ Lens | \$108 NEW
- b #19542 | Black Corp Matte Frame, Vermillon Gun Lens | \$64 NEW

Equipped with a large spherical lens, this OTG goggle is ideal for medium to large face sizes and is designed to fit over almost any eyeglasses frame with room to allow for sufficient airflow to prevent fogging.

6 Northstar

- a #19008 | Matte Black Corp Frame, Phantom+ Lens | \$109
- b #19009 | Matte Grey Squares Frame, Phantom Fire Red Lens | \$98

The Northstar provides a comfortable fit for a majority of face shapes and sizes. A wide spherical lens and a semi-frameless design allow a wide, accurate peripheral view. Medium to Large fit.

7 Laika

- a #19537 | White Monogram Matte Frame, Phantom Vermillon Blue Lens | \$96 NEW
- b #19011 | Matte Blue Hawaii Frame, Bronze Blue Lens | \$59

This goggle mixes the latest and greatest Bollé lens and frame technologies with modern design and patterns. Small to medium fit.

BOLLÉ GOGGLES

- ▶ **BRONZE BLUE LENS:** A lens best suited for sunny conditions. A brown base color amplifies color contrast and the blue tint brings out definition in the shadows.
- ▶ **LEMON LENS:** Ideal for low-light conditions, yellow lenses enhance depth perception for improved visibility.
- ▶ **PHANTOM+ LENS:** Part of the new line of light, adaptive lenses from Bollé, this option is excellent for versatile conditions. Pink lenses maximize color definition and depth perception and a semi-polarized filter enhances contrast and efficiently blocks reflections of the sun to allow you to see better.
- ▶ **PHANTOM FIRE RED LENS:** Ideal for sunny conditions, brown lenses amplify color contrast and deliver high visual definition.

- ▶ **PHANTOM GREEN EMERALD LENS:** This option excels in all light conditions, from overcast mornings to bluebird lunches on the deck. With a photochromic component that's excellent for versatile conditions, this lens features an amber base that manages yellow light for optimal visual comfort and a green chrome finish
- ▶ **PHANTOM VERMILLON BLUE LENS:** A photochromic lens excellent for versatile conditions, the rose base with a blue tint maximizes color definition and depth perception..
- ▶ **SUNRISE LENS:** This is a high-contrast amber lens that's ideal for sunny conditions and the gold mirror finish reflects glare and adds a stylish look.
- ▶ **VERMILLON GUN LENS:** A pink lens with a silver mirror coating that brings out contrast and maximizes color definition. Delivers excellent optical comfort and is a pleasure to wear in all conditions.

Swix has taken an enormous step to develop a Global Sustainable Fluoro Plan to move beyond fluorocarbon-based waxes. Starting this season, all Swix waxes sold at retail will be fluoro-free. Look for the whole new line of fluoro-free waxes in this catalog.

1 Power Ski Vise
#19505 | \$184

With this three-point vise, skis up to 155-mm wide can be locked at 90 degrees, 45 degrees, and 0 degrees. The three-piece design is extremely stable, with supports that perfectly align with the center piece.

2 Jaw Economy Vise
#19504 | \$99

With its center jaw opening from 35-mm to 90-mm, this three-piece vise accommodates many traditional alpine skis and junior skis. It holds skis at 60 degrees and 90 degrees for side-edge work and securely clamps the skis flat for base and base-edge work.

3 Base Cleaner Set
#986 | \$16

This indispensable set includes Base Cleaner (150 ml) and Fiberlene (20-meter roll).

4 Polishing Cork
a #18754 | Ski | \$4.00
b #994 | Snowboard | \$7.50

This natural cork makes quick work of polishing any wax into the base of skis or snowboards.

5 Rectangular Blue Nylon Brush
#988 | \$14

This must-have tuning tool is made with soft nylon bristles for use as a second brush after scraping.

6 Long/Medium Diamond Stone
#993 | \$26

No tune kit is complete without these items, which offer the cutting ability of a file and the de-burring and polishing ability of a stone – all in one tool. 100-mm.

7 Economy Waxing Iron
#18755 | \$40

This product has all the essential features to meet your waxing-iron needs; ergonomic body, a thick metal plate to hold consistent heat, and a beveled edge. Well-suited for alpine and nordic skis as well as snowboards.

8 Ski Plexi Scraper
#944 | \$4.50

This scraper is 4-mm-thick and 5" long; ideal for removing excess wax from skis.

9 Snowboard Plexi Scraper
#945 | \$6.50

This scraper is 4-mm-thick and 7" long; ideal for removing wax from snowboards and wide skis.

10 Plexi Sharpener
#942 | \$16

So easy to use; several quick, light passes put a sharp edge on your plexi scrapers.

11 Gummi Stone
#943 | \$8

This tool is designed to polish edges and remove excess burrs. It's also great for removing corrosion on steel edges of skis and snowboards.

12 F4 Liquid Wax (Fluoro-Free)
#18209 | \$10.50

F4 Universal All Temp liquid wax, this product is easily applied to the base with a foam applicator and felt polisher. 100 ml.

13 Universal Hydrocarbon Wax
#17220 | \$13

The formula used in this biodegradable white wax covers a wide range of snow temperatures. Combine with colder or warmer hydrocarbon waxes to fine tune your wax for prevailing conditions. 180 grams.

Go to vimeo.com/swix for helpful tutorials on using a wide range of Swix products.

16 **F4 Universal Wax 180g**
#18753 | \$20

A high-quality, water-repellent wax for skis and snowboards and for all snow conditions. Iron in, scrape, and brush. 180 grams.

17 **Mass Transit Tune Kit by North, Forged by Swix**
#18822 | \$65

A complete high-quality kit with carrying case. Includes: 180-gram block of Universal Wax; Pocket Edge Sharpener; Pocket Diamond Sharpener; Bronze/Nylon Brush; Plexi Scraper; Screw-driver Tool; Waxing Iron (110 volt).

18 **Evo Pro Edge Tuner**
#18885 | \$349

With this electric side-edge sharpening tool, you can easily put a razor-sharp edge on a pair of skis or a snowboard. The circular diamond disc is adjustable in one-degree increments from 90 degrees to 85 degrees and backed by a steel spring, which ensures constant pressure regardless of stone wear. Includes fine diamond stone (installed); additional coarse and medium discs are available. Plugs directly into the wall; no batteries needed. 110-240 volt.

19 **Spare Disc for Evo Pro Edge Tuner**

- a #19043 | Extra Fine | \$68
- b #19044 | Fine | \$68
- c #19045 | Medium | \$68
- d #19046 | Coarse | \$68

Expand the tuning functionality of your Evo Pro Edge Tuner or purchase replacement discs. Available in four options:

- ▶ **Extra Fine** – Used as a super-fine polisher and hardener
- ▶ **Fine** (included with the Evo Pro Edger) – A good overall grit for finishing and polishing
- ▶ **Medium** – For general maintenance; ideal when more than a polish is needed
- ▶ **Coarse** – Perfect for angle set-up on new skis or when changing the angle; also great for deburring when the edge is damaged.

14 **Pro High Speed Wax (Fluoro-Free)**

- a #19544 | HS05 14-0°F | \$24
- b #19545 | HS06 21-10°F | \$24
- c #19546 | HS07 28-18°F | \$24
- d #19547 | HS08 25-39°F | \$24

To get the best performance on snow, you want to match wits – and your wax – with the prevailing conditions. Make informed choices by considering the following temperature ranges and.

- ▶ **HS05 (temperature range 14-0°F):** The hardest wax in the HS line; ideal for cold conditions for both alpine and cross country.
- ▶ **HS06 (temperature range 21-10°F):** A very versatile wax that maintains durability and offers great performance on natural as well as artificial snow.
- ▶ **HS07 (temperature range 18-28°F):** A wax that performs great in normal winter conditions below the freezing point. Its hardness makes it convenient to work with and easy to get good results.
- ▶ **HS08 (temperature range 25-39°F):** An economic training and racing wax as well as base-prep wax for warm skis. Easy to melt and very easy to work with.

15 **Pure Performance Speed Wax (Fluoro-Free)**

- a #19548 | PS05 14-0°F | \$24
- b #19549 | PS06 21-10°F | \$24
- c #19550 | PS07 28-18°F | \$24
- d #19551 | PS08 25-39°F | \$24
- e #18552 | PS10 25-39°F | \$9

Fine-tune performance with the specific wax for the current conditions. Each wax has its own strengths, so here are key facts to keep in mind.

- ▶ **PS05 (temperature range 14-0°F):** The hardest and most durable wax in the Swix line; ideal for cold conditions. 180-gram block.
- ▶ **PS06 (temperature range 21-10°F):** Highly durable and offers great performance in most snow conditions as well as on artificial and glacier conditions. 180-gram block.
- ▶ **PS07 (temperature range 18-28°F):** A wax that performs great in normal winter conditions below the freezing point. Its hardness makes it convenient to work with and easy to get good results. 180-gram block.
- ▶ **PS08 (temperature range 25-39°F):** An economic training and racing wax as well as base-prep wax for warm skis. Easy to melt and very easy to work with. 180-gram block.
- ▶ **PS10 (temperature range 32-50°F):** For use in the warmest conditions or to protect your bases while storing your skis in the off-season. 60-gram block.

The experts at Toko have been producing alpine waxes since 1933, so it's no wonder that some of today's most successful nordic, alpine, and snowboard athletes count on Toko waxing and tuning products for top-level performance. In addition, the line of Toko Care products offered here are specifically designed to maintain and restore technical outdoor clothing and accessories.

12

13

1 Eco Textile Wash

#18687 | \$8

This environmentally friendly detergent cleans the surface and restores the optimal technical functionality of waterproof/breathable membranes. 250ml; enough for about eight washes.

2 Eco Wash-In Proof

#18756 | \$11

Once you've cleaned your jacket and pants, you can restore the original DWR (durable water repellency) properties by using this Wash-In Proof. 250ml; enough for about eight washes.

3 Eco Down Wash

#18685 | \$8

This is a special, environmentally friendly detergent for clothing with down or synthetic insulation. It restores the insulation qualities of your clothing by cleaning and loosening the filling while retaining its natural protective coating. 250ml; enough for about eight washes.

4 Eco Wool Wash

#18686 | \$8

Specifically designed to clean high-quality wool and merino wool sportswear, this environmentally friendly product uses a special balsam that treats the fibers of the wool, protecting the garment against felting and keeping the material soft and smooth. It's biodegradable and effective even at low wash temperatures. 250ml; enough for about eight washes.

5 Eco Shoe and Boot Fresh

#18688 | \$8

This highly effective fresh spray has an anti-bacterial active agent that eliminates unpleasant odors from all types of footwear. Environmentally friendly, the 125-ml pump-spray bottle is simple to use, and a little goes a long way.

6 Express Mini Liquid Wax

#18691 | \$7

A universal-temperature wax in a convenient liquid form with applicator.

7 Express Racing Paste Wax

#18758 | \$20

A premium, highly-fluorinated racing wax paste for all kinds of snow and temperatures. 50 grams.

8 Multi Base Angle Tuner

#18696 | \$40

Produce precision base-edge beveling, adjustable from 0.5° to 2.0°. This edge tuner works with the medium coarse or finishing file, with the file secured in place with a knurled screw.

9 Edge Tuner Pro

#18697 | \$50

This professional-level, side-edge tuner provides resistance-free tuning by using stainless steel rollers on the base. Included with this tuner is the 80-mm World Cup universal file, but it also accommodates many other file types and diamond files. Adjustable angle settings from 90° to 85°.

10 Sidewall Planer Pro

#18760 | \$56

This tool is ideal for problem-free removal of ABS sidewall material, which makes it easier to file the steel edge and allows greater precision. Features include coated guidance plates and an adjustable, hard-metal square knife.

11 Repair Candles

a #18698 | Transparent | \$5
b #18699 | Graphite | \$5

These 6-mm candles allow for quick repair of deep scratches on your base. Sold as a four-pack.

12 World Cup File Chrome

#18759 | \$13

Measuring 150 mm, this fine file has a hard-chromed surface and 16 teeth per centimeter.

13 World Cup File Chrome M

#18824 | \$13

This universal file is 200-mm long, with a hard chrome surface and 14 teeth per centimeter.

14

14 **T14 Digital Iron US 1200w**
#18823 | \$109

This powerful digital waxing device for professional use features an ergonomic design that enables waxing in all directions, temperature adjustment from 100 °C to 160 °C, and a built-in microprocessor to control temperature fluctuations. The extra-strong, aluminum pressure-cast plate is ideal for heat storage and has a curved rhomboid structure that improves the distribution of the wax and compression.

15

15 **Basic Hot Wax Kit**
#18695 | \$30

The ideal travel kit; drop it in your gear bag and be ready to freshen up those bases when needed. It includes 40-gram wax blocks of NF Yellow, Red, and Blue to accommodate various snow temperatures, an all-purpose nylon brush to clean base structure and buff, and the 3-mm Plexi Scraper to remove excess wax.

16a

16b

16c

16d

16 **Roto Brushes**

- a #19049 | 10mm Nylon Black | \$44
- b #19048 | 4mm Nylon Grey | \$44
- c #19047 | 10mm Brass | \$88
- d #19050 | Single 100mm Axle with Wax Guard | \$54

For efficient base prep and waxing, use a combination of Roto Brushes with the 100-mm axle and wax guard to obtain the perfect polished finish on ski or snowboard bases. Easy to use with any drill (max. 800 rpm for Brass Roto Brush). First use the 10-mm Brass brush to clean the base. After applying the wax, use the 4-mm Nylon Grey brush to brush out wax from the structure of the base. The 10-mm Nylon brush is a soft nylon for polishing bases.

1 DryGuy Force Dry DX Boot and Glove Dryer

#18743 | \$54

Start every day dry and warm by using this heater/dryer the night before. Four extra-tall air chambers can warm and dry up to four items at one time, in as little as one hour. Features a Heat/No Heat switch and a three-hour timer. Heats to 105°F; warm enough to dry but not hot enough to harm liners or affect custom molding.

2 DryGuy Force Dry Boot and Glove Dryer

#18456 | \$34

This dryer is more compact than the Force Dry DX but has the same drying power. Two articulating, telescoping drying ports rotate 180 degrees from stowed to flat to accommodate all types of footwear and gloves. Features a three-hour timer. Heats to 105°F; warm enough to dry but not hot enough to harm liners or affect custom molding.

3 DryGuy Helmet Holder Accessory for Force Dry DX Boot and Glove Dryer

#18745 | \$10

A convenient attachment to efficiently dry your helmet or other headgear, this accessory simply slides over one of the arms on the Force Dry DX and evenly distributes drying air into a helmet liner.

4 DryGuy Travel Dry DX Boot and Shoe Dryer

#18744 | \$29

A great way to eliminate odors and bacteria, the patented design of this boot dryer/warmer circulates warm air through the inner boot (starting at the toe box) – which eliminates moisture from the inside-out without damaging your footwear, boot liners, or footbeds. 12-volt car and 110-volt household adapters are included.

5 Boot Glove Thermal Layering System

#17113 | M, L | \$29

Just like a driesuit protects your body from cold water, this performance layering system blocks the loss of heat from ski and snowboard boots and keeps wind and moisture out. The thermally insulated neoprene cover keeps boots 10 to 20°F warmer than usual. Sizes: Medium fits men's 6-10, large fits men's 9-15. Other sizes available through the Implus (Yaktrax) Pro site.

6 Space Emergency Blanket

#835 | \$5

Created to meet the stringent requirements for space travel, this blanket is a favorite among instructors, patrollers, search and rescue personnel, and backcountry travelers because it's lightweight and dependably produces heat. Windproof and waterproof, it reflects 90% of your body heat back to you. Buy a few extras to keep in your car. 84 x 56".

THESE INSURANCE PROVIDERS HAVE YOUR BACK... AND KNEES AND...

Whether you teach fulltime or part-time, you want your days on snow to be fun-filled and pain-free. But just in case you do become injured when pursuing your love of snowsports and teaching, PSIA-AASI partners with three insurance providers who have policies tailor-made for instructors:

- Geico
- Sports Insurance
- Spot

Be sure to check out their programs, policies, and discounts on the PSIA-AASI Pro Offers page (tiny.cc/ProOffers).

4 WAYS TO SHOP

1. Order at thesnowpros.org
2. Order by phone, 303.987.9390
3. Fax your order to 303.987.9489
4. Mail in the order form in this catalog (additional forms can be downloaded from thesnowpros.org). Please note that paying by credit card is preferred over checks.

GRABBER WARMERS®

On some days, even socks and gloves are no match for Mother Nature in a chilly mood. Grabber Warmers are your ticket to long-lasting warmth. They're convenient, affordable, and great for personal use as well as for your students. (All Grabber Warmers are bio-degradable and designed for one-time use.)

Toe Warmers
#654 | 1-39 | \$1.25 EA.
Case of 40 | \$44

Stamp out cold feet! Simply open the package and apply the adhesive warmer to the inside of your boot or the outside of your sock. Each package contains two 6-hour warmers.

Hand and Glove Warmers
#17186 | 1-39 | \$1.00 EA.
Case of 40 | \$32

When temperatures are frigid, a little extra warmth can work wonders. These mini heaters can save the day, so stock up before the snow flies. Sold in pairs, these warmers are air-activated and last 10 hours or more.

Yaktrax Pro
#18429 | S, M, L | \$19

This offering from Yaktrax accommodates most types of footwear, from work boots to hiking shoes or even business shoes. They're easy to put on and take off and compact enough to carry in a purse or small bag. The spikeless, lightweight design uses steel coils to help reduce the risk of falls in snowy or icy conditions.

Yaktrax Chains
#18879 | S, M, L, XL | \$16

Think of these as tire chains for your feet; perfect for all ice and snow conditions and comfortable enough for extended wear on a variety of footwear. The square links are individually welded and made from case-hardened steel. The durable rubber sling is flexible in sub-zero temperatures and stays securely on footwear, even in deep snow.

SkiTrax
#18232 | XS, S, M, L | \$15

The number-one reason people purchase the SkiTrax is to protect their investment in their ski boots; and it certainly doesn't hurt that they keep you from slipping and sliding on the ice on your way from the parking lot to the slopes.

Yaktrax Chains Size Chart

	S	M	L	XL
MEN	5-6	6.5-9	9.5-11	13+
WOMEN	5-7	7.5-10	10.5+	

Yaktrax Pro/Skitrax Sizing

	XS	S	M	L
MEN	1-4.5	5-8.5	9-11.5	12-13.5
WOMEN	5-6	6.5-10	10.5-12.5	13-15
MONDO	21-23.5	24-27	27.5-29.5	30-31.5
SOLE (MM)	250-275	280-305	310-335	340-350

The most trusted name in backcountry safety, BCA makes gear that's reliable and easy to use. The company's roots are in freeriding; they love sending big lines like everyone else, but none of that counts unless you return safely. Get avalanche training and make sure your gear is reliable, easy to use, and backed up by an education-based brand.

Tracker 4 Avalanche Rescue Set NEW
#19526 | \$340

The T4 Avalanche Rescue package is great for anyone looking to gear up for the backcountry. The package comes with the brand-new Tracker 4 avalanche transceiver, extendable B-1 EXT avalanche shovel, and quick-deploying Stealth 270 avalanche probe – all at package pricing on the core equipment you need to be safer in the backcountry.

Tracker 4 Avalanche Transceiver NEW
#19525 | \$280

The latest in the most trusted and easiest transceivers out there; the T4 features a larger, easy-to-use LED screen, as well as a rubberized, over-molded case for long-term durability. All transceivers include a harness and batteries.

Tracker S Avalanche Transceiver
#19035 | \$229

The BCA Tracker S avalanche transceiver has the performance, ease of use, and instantaneous real-time display of BCA's well-known Tracker 3, without the advanced motion-sensing or upgradeable software that, while useful, can be more complicated to learn.

Snow Study Kit
#19042 | \$72

BCA designed its snow-study tools in conjunction with North America's most experienced avalanche educators. This kit lets you gather all the data you need, without breaking the bank. It includes a snow crystal identification card, slope meter, analog thermometer, and magnifying loupe.

Stealth 240 Probe Pole
#19038 | \$35

Stealth avalanche probes feature the easiest and fastest assembly on the market, with no loose cable to cause hang-ups. Equipped with laser-etched depth markings for measuring snowpack and/or victim depth. Aluminum, 240cm.

Stealth 300 Probe Pole
#19039 | \$49

Same features as the 240 probe, just longer. This is a heavy-duty, 300cm probe for professionals and those traveling in deep snowpack. Aluminum, 300cm.

B-1 EXT Shovel
#19040 | \$36

The lightness of the B-1 EXT avalanche shovel appeals to weight-conscious skiers and snowboarders who prefer the comfort and functionality of an extendable shovel. It has an oval shaft, ergonomic grip, and takes up minimal space in your pack because there's no neck (or ferrule) on the bombproof blade.

B-52 EXT Shovel
#19041 | \$44

The B-52 EXT is designed to make the tough jobs easier. Whether it's excavating an avalanche victim, freeing a truck from a snowbank, or building a big jump, the B-52 gets the job done fast. It has the same features as the B-1 EXT but in a bigger size.

BCA Link 2.0 2-Way Radio
#19037 | \$135

The BC Link™ 2.0 is BCA's next-generation radio with two watts of power for more usable range. The Smart Mic grill is impervious to packing with snow, and the on/off channel selection dial switch is protected from inadvertent channel changing. Comes with a built-in rechargeable lithium-ion battery, durable cord/base unit, and battery-percentage power display. The battery lasts for several days without recharging, even in cold temps.

QUANTUM ENERGY BARS®

OFFICIAL SUPPLIER

Quantum Energy Bars **NEW**

Quantum Energy Squares are formulated by combining organic green coffee beans* with macronutrients from fruits, nuts, grains, and seeds to provide a slow, long-lasting energy boost. Each bar is packed with natural antioxidants, vitamins, and minerals from real food ingredients such as almonds, pea protein, pumpkin seeds, quinoa, chia seeds, cherries, dates, dark chocolate, and monk fruit.

*100 milligrams of caffeine from organic green coffee beans (similar to the caffeine content of one cup of coffee)

a #19563 | Café Mocha Almond Chip | \$24

b #19564 | Coconut Almond Chip | \$24

c #19565 | Peanut Butter Dark Chocolate | \$24

Available in three flavors and sold by the "Caddy" which is 10 individually wrapped energy squares.

Goggle Grip

#18765 | \$12

Designed to secure your goggle strap to the side of your helmet so that your goggles will stay in place on top of your helmet when you need to remove them from your face. Peel-and-stick 3M application. (Shown in green but only available in black.)

PHOOZY®

OFFICIAL SUPPLIER

Apollo II Series Thermal Capsule + Antimicrobial **NEW**

19566S | Silver | \$20

19566G | Gold | \$20

In addition to protecting your smartphone from damage and battery-killing cold, Phoozy is looking out for your health. This sleeve insulates your phone in cold conditions to increase battery life by up to 4x (compared to not using a PHOOZY). New Agion® Antimicrobial technology is integrated into the SoftTouch Protective lining to keep your devices more hygienically clean and inhibit nasty germs and bacteria. Its patented materials and design easily slides in your jacket or pants pocket for complete protection for all of your outdoor activities.

PHOOZY Device Decontamination Wipes **NEW**

#19567 | \$7.50

Disinfect your cell phone, tablet, earbuds, smartwatch, and other devices with these single-use, biodegradable wipes. Each wipe contains 73% ethyl alcohol and purified water, rated to kill 99.9% of germs, bacteria, and viruses on devices. Can also be used to wipe down high-touch items like charging cables, remote controls, light switches, doorknobs, and other non-porous surfaces. 50 individually-wrapped wipes, with 1 SoftTouch microfiber polishing cloth.

Sven Can See Anti-Fog Gel

#18964 | \$7

This is the best product available to prevent your goggles or sunglasses from fogging. The 8-milliliter pen-like applicator is convenient to carry, and this kit includes a micro-fiber cloth for easy wipe-and-go application. Biodegradable, no alcohol, no fumes, safe for all types of lenses.

Transpack Heated Boot Bag Pro

19014 | Black/Silver | \$134

Warm and dry your ski or snowboard boots and gear on the go in your car or at home. This bag's 12-volt and 110-volt plugs give you both options, with three heat settings for desired temperature. Zippered mesh side panels allow moisture to evaporate, the side-hinged front door affords easy access, and the external helmet pocket accommodates any skid lid. Made of Transpack's trademark ballistic nylon with a waterproof tarpaulin bottom. 2,400 cubic inches.

Rocker Ski Rack

#19509 | Standard | \$28

#19510 | XL | \$36

Sold in 2 sizes, the 152mm XL or the 100mm Standard. A wall-mounted rack that safely and effectively stores skis and snowboards. Choose XL if you're storing snowboards or skis over 120mm in the tip. Get more information in the online catalog!

BURTON®

Burton LTR Handle Bar #18831 | \$65

This is the first and only teaching aid for dramatically decreasing the learning curve for young shredders. Simply mount on the snowboard in place of the bindings, allowing the student to find their balance on their own, with the freedom to step off if needed. Better than holding hands, while still giving the instructor the hands-on ability to control angle and speed.

VIEW VIDEO

tiny.cc/yaleny

AASI and Burton Snowboards have partnered for 20 years to grow the sport of snowboarding. Now with Burton's Riglet Program and AASI's teaching methods, kids age 3-6 are turning into rock-star riders. Watch this video to learn more.

#KIDSCANSNOWBOARD

SkiA Sweetspot Trainer

#18655 | \$35

Specifically designed to help skiers practice accurate fore/aft balance, this kit includes a pair of trainers and four sets of different-sized balance blocks that provide a target for centered balance. As your balance skills improve, you progress from the green block (the widest and most stable block) to the blue and red blocks, and then on to the black block (which, at only half an inch wide, provides an extremely effective challenge). The trainers fit all sizes of ski boots and attach in seconds.

Ski Ring™

#18966 | \$20

Using a Ski Ring to keep a skier's hands in the right position supports proper stance and balance, which facilitates learning at all levels of skiing. For younger students, the Ski Ring encourages fun and imaginative play while learning. Ages 3 and up.

Child Ski Harness

#19499 | \$24

A great tool to use after a child learns the fundamentals of skiing, the shock-absorbing system allows you to control speed without the whiplash effect of static leashes, and you can use the easy-grip handle to help lift the child off the ground or onto the chairlift.

Wedgease

#18497 | Blue | \$10
#18593 | Pink | \$10

The Wedgease provides a perfect way to connect the ski tips to help a beginner skier achieve the perfect wedge ski position. This device's specialized, vice grip-like clips create a secure, durable, and damage-free connection to the skis and a durable bungee cord allows some flex but also has rebound to help bring the skier into position. One size fits all.

Hookease

#19498 | \$36

Simply attach the two eyelet-equipped clamps to the tails of your student's skis, then attach the hook to your pole tips with an expansion clamp. With the Hookease, you have greater control over a child's speed and ski angle, making the learning experience more fun for you and your student (or child/grandchild). Use with the Wedgease (#18497 or #18593) to maximize the benefits.

Booster Straps

#571 | Intermediate | \$25
#569 | Expert | \$28
#17315 | World Cup | \$30

No longer just for racers, Booster Straps help prevent loss of forward flex in the upper boot cuff. Pick the level appropriate for you; each model (sold in pairs) uses a different number of elastic straps to provide the right amount of rebound and power for your ability level.

- **Intermediate:** Two layers of elastic straps for moderate performance needs
- **Expert:** Three layers of elastic straps for advanced performance needs
- **World Cup:** Four layers of powerful elastic response

Member Satisfaction Guarantee

Our products are designed to help you improve your performance and enjoyment as an instructor and snowsports enthusiast. If your purchase does not meet your expectations, please return it to us within 30 days of receipt for an exchange or refund (see Exchanges and Returns). Member satisfaction is our primary concern!

ONLINE ORDERS

Order securely online at thesnowpros.org. Just log in, click Shop, click Catalog, and start shopping!

FAX ORDERS

Orders are accepted by fax (303.987.9489), 24 hours a day, 7 days a week. Be sure to fill out this order form completely and legibly and please provide the following information:

- Name and member ID number
- Email address and daytime telephone number
- Visa, MasterCard, Discover, or American Express number, expiration date, and CSV code
- Home address used for credit card billing
- Shipping address (no P.O. boxes, please)
- Item number(s), quantity, and description
- Special engraving instructions, if applicable

Please do not mail a copy of a fax order. We will not be responsible for duplicate orders!

MAIL ORDERS

To mail your order, please fill out the reverse side of this form and mail it to us, with payment. **Please pay by credit card, if possible, to avoid complications in the event of backorders.**

PRICE GUARANTEE

All prices in this catalog 1) are guaranteed through June 30, 2021, or as long as supplies last, and 2) supersede all prices in previous catalogs. PSIA-AASI may change prices in this catalog at any time due to error or changes in supplier pricing.

STATE AND LOCAL TAX

We are required to collect state and local sales tax on items shipped anywhere in Colorado. Colorado residents add 2.9%, Denver Metro area residents add an additional 1.1% for RTDCD/FD, and Jefferson County residents add an additional 0.5%. Lakewood city residents add an additional 3%. (Tax rates are valid until January 1, 2021.)

ORDER PROCESSING

Orders are processed in the order in which they are received. Overnight and 2nd Day Air orders have first priority and will be processed before other orders. Because the catalog is seasonal, the holidays are our busiest time. With that in mind, please allow sufficient time for us to process and ship your order using the following delivery guidelines.

DELIVERY

Orders are shipped via FedEx Ground in the continental United States from our warehouse in Lakewood, Colorado, and are delivered **within one to two weeks**, depending on destination. Orders may be shipped in separate packages. **FedEx does not deliver to P.O. boxes.** Orders going to Alaska and Hawaii are shipped via FedEx 2nd Day Air (an extra charge is applied), or you can request U.S. Mail delivery and we'll adjust shipping and handling accordingly. Orders going to APOs and FPOs are shipped via U.S. Mail. Foreign and Canadian orders are sent by U.S. Priority Mail or FedEx with an extra charge, if needed. FedEx 2nd Day or Next Day Air service to domestic addresses is available for an additional charge. **Please allow 24 hours processing time for all rush orders. Also, please note that FedEx does not guarantee expedited service from 12/18 to 12/25.**

BACKORDERS

Items on backorder will be cancelled if the PSIA-AASI warehouse does not receive merchandise from the manufacturer within 60 days of order processing. We will make every attempt to fulfill backorders, and ask that you notify us if you wish to cancel the order. **Applicable refunds will be sent in four to six weeks.**

QUESTIONS ABOUT PRODUCTS AND ORDERS

If you have a question about a catalog product or the status of an order that has already been placed, please call the PSIA-AASI member service specialists at **303.987.9390**, Monday through Friday between 8:30 a.m. and 4:30 p.m. (Mountain Standard Time), or email your inquiry to: memberservices@thesnowpros.org. Member service specialists are specially trained to assist you with all your catalog information requests. You can also find product and availability information at thesnowpros.org.

PERSONALIZATION

Please provide all information requested for personalized items as carefully as possible. **Engraved or embroidered items cannot be returned.** For a large order of personalized items, use a separate sheet of paper, and print each name in block letters. **Please allow two to three weeks for delivery of engraved items and up to 5 weeks for custom embroidery.**

EXCHANGES AND RETURNS

You may return your purchase to us for an exchange or refund if 1) we receive the merchandise within 30 days of receipt, and 2) the merchandise is in its original packaging with all hang tags attached, unused, and in excellent condition. (Closeout items are not returnable; no exchange or refund will be offered.) To print or download a return form, go to: thesnowpros.org/shop/returnform. Follow the instructions on the form to complete your return. Or call our member service specialists at **303.987.9390** for assistance.

Please remember to

- Provide your name, member ID #, daytime phone number, and email address
- Indicate size, quantity, color, etc.
- Provide accurate credit card information
- Sign your check (if payment by credit card is not possible)

We strive to provide the best combination of low prices and exceptional services through this catalog.

- Please consider Next Day Air or 2nd Day Air shipping if you need your order right away.
- During the busy holiday season please allow extra time for us to process and ship your order.

Thank you for your continued support of the Education Foundation for the Professional Ski Instructors of America and the American Association of Snowboard Instructors.

Zip-O-Gage

#673 | \$4.50

Thermometer and PSIA logo on the front and wind-chill chart on the back with keyring. 1 x 2".

Rite In The Rain Notepad And Notebook

#644 | Notepad 3 x5" Top Spiral | \$8

#645 | Notebook 4 5/8"x 7" Side Spiral |\$14

Keep your important notes safe in the pages of these weather-proof notebooks. Use with a pencil or PSIA Space Pen (#892) in any weather, wet or dry. The PSIA and AASI logos are printed on the front cover and Your Responsibility Code is on the inside cover.

PSIA Logo T-Shirt

#17277 | Unisex S-XL | \$12

Show off your PSIA pride with this heavy-weight cotton t-shirt, which sports the PSIA shield screen-printed on the left chest. White.

PSIA Space Pen

#892 | \$16

This legendary writing instrument uses a sealed, pressurized ink cartridge that keeps the ink from freezing in frigid temperatures and enables writing at any angle. Works on glossy surfaces and even under water. The perfect companion to the Instructor's Notepad (#644) and Notebook (#645). Matte black, imprinted with the PSIA logo in gold.

Trekker Space Pen

#18700 | \$28

This pen can hang upside down each and every day yet function immediately when needed, even in cold or wet conditions. Clip it to your jacket, pack, or belt, or use the lanyard to always have quick and convenient access to this indispensable writing tool.

License Plate Frame

#18525 | PSIA | \$14

#18527 | AASI | \$14

Show your PSIA-AASI pride with this full-frame metal license plate frame, which features the PSIA or AASI logo and "I can teach you how to ski" or "I can teach you how to snowboard," respectively. Chrome with engraved wording and epoxy dome logos to stand out.

PSIA-AASI Miir Daily Tumbler

#18826 | \$14

12-ounce double-walled tumbler with PSIA and AASI logos. Thanks to Miir's commitment to the global community, purchase of this or the Miir 20-oz Bottle (#18825) helps give one person in need clean water for one year. Learn more at Miir.com.

PSIA-AASI Miir 20-oz Bottle

#18825 | \$13

20 ounce stainless water bottle with PSIA and AASI logos.
