PRO OFFERS

This symbol identifies PSIA-AASI Official Suppliers, who provide member-specific pricing on great products and brand support that benefits PSIA-AASI education programs and helps keep dues low. It's a sign of quality and commitment to your association and to you.

Design by David Boersma (Mojave Creative Lab); product photography by Povy Atchison and manufacturers; lifestyle photos by Linda Guerrette, Cullen McHale/Eldora Mountain Resort, Todd Diemer, Philipp Kammerer, Hestra, and The North Face.

EDUCATION & DIGITAL LEARNING

Education materials are available in print and/or digital format, and many include supplemental video that helps the content come alive. These products will help you:

- Enhance your professional development.
- Achieve your certification goals.
- Connect with your guests.
- Expand your teaching opportunities.

DIGITAL LEARNING

E-LEARNING COURSES

AASI/Burton Riglet PE Course

AASI and Burton teamed up to create an engaging environment – on and off snow – for kids 12 and under to find success with snowboarding. This course is geared to kindergarten through second-grade physical education (PE) teachers but has great takeaways for parents and snowsports instructors too.

FREE

ACL Strong

This specialized exercise plan provides a 4-week progression (plus 2 bonus weeks) with exercises that teach you why knee injuries occur, how to protect yourself long-term, why technique matters, and how to be more aware of your body alignment and position.

\$85 | CEUs: 2

Alpine Level I

For PSIA-AASI members only, this prerequisite course is designed to be completed prior to attending the on-snow portion of the Alpine Level I assessment.

FREE

Alpine Movement Analysis

Observe and apply movement analysis – using accurate and relevant comparisons of skiing performance and body movements to help your students improve.

\$20 | CEUs: 1

The Alpine Skiing Fundamentals

Learn how the Alpine Skiing Fundamentals bring PSIA's Skills Concept to life, offering insights on how to design better learning experiences.

\$40 | CEUs: 2

Children's Specialist 1

Learn how to apply knowledge of children's development to teaching snowsports. This course is required before taking the on-snow Children's Specialist 1 assessment.

\$20 | CEUs: 1

Course For New Instructors

Interested in becoming an instructor or just getting your teaching career started? This course offers invaluable insight into teaching and learning theories, working with students, and safety.

FREE

Cross Country Level I

For PSIA-AASI members only, this course is designed to be completed prior to attending the on-snow portion of the Cross Country Level I assessment.

FREE

Delivering the Beginner Experience – Alpine, Snowboard, and Cross Country

Available for three teaching disciplines – alpine, snowboard, and cross country – topics include introducing guests to sliding on snow, negotiating the rental shop, and how to provide an inspirational beginner experience.

FREE

Freestyle Skiing Track

Promotes safe practices and understanding of freestyle skiing for new instructors teaching basic freestyle in and outside of the park, experienced instructors preparing for their freestyle specialist assessment, and ski school leadership training staff.

\$20 | CEUs: 1

E-LEARNING COURSES (continued)

Freestyle Snowboarding Track

Snowboarding-specific track with same educational parameters of the Freestyle Skiing Track (see above).

\$20 | CEUs: 1

Introduction to Working with Children

Broaden your knowledge of children's development and learn the concepts that apply to teaching children.

FREE

Junior Instructor Certificate Program

Outlines an educational pathway for teens to learn about becoming an instructor and working with guests in the mountain environment.

\$25

Mountain Safety Awareness

Enhance your knowledge for how to keep yourself and others safer in the mountain environment.

FREE

PSIA-AASI Sno-Go E-Learning Course

This course helps resorts introduce Sno-Go equipment to staff, especially instructors. Topics include Sno-Go equipment, riding basics, how to ride the chairlift, and advanced edging techniques. Receive a certificate of completion you can submit to your resort.

FREE

Skate-to-Ski: Improving Gliding and Turning for Better Skiing

A component of PSIA-AASI Official Supplier Rollerblade's Skate-to-Ski Program, this course offers a training tool for improving skiing skills through inline skating.

\$120 | CEUs: 6

Snowboard Level I

For PSIA-AASI members only, this prerequisite course is designed to be completed prior to attending the on-snow portion of the Snowboard Level I assessment.

FREE

Teaching Adaptive Snowsports

Available as seven different mini-courses – Introduction, Beginner Cognitive, Beginner Visual Impairment, Beginner Three-Track, Beginner Four-Track, Beginner Bi-Ski, and Beginner Mono-Ski – these resources help you discover your niche in adaptive instruction.

FREE

Teaching Families and Groups

Gain tools to be successful teaching a lesson for any mixture of clients, whether they come from the same household or are an eclectic group of individuals.

\$120 | CEUs: 6

Uphill Travel

This course introduces snowboarders, alpine skiers, and telemark skiers to the world of self-powered uphill travel within ski area boundaries.

FREE

MORE DIGITAL RESOURCES

THE MATRIX

The Matrix contains current ski and snowboard educational video content, covering all disciplines, a wide variety of terrain and conditions, exam-assessment activities, teaching examples, movement analysis tips, educational presentations, and much more.

FREE

WEBINARS

UPCOMING WEBINARS

RECORDED WEBINARS

Recorded Webinar Highlights:

Tea Talks with Stacey Gerrish: In these free video conferences, PSIA-AASI education leader Stacey Gerrish interviews instructors and snowsports industry leaders who share their stories on teaching, learning, technical skills, and more.

FREE

Women's Virtual Summit – Mindfulness in Snowsports: This presentation by Suzy Chase-Motzkin covers her personal journey of self-healing, concepts on "energy follows thought" and visualization, and the skills of self-talk and coaching others.

\$20 | CEUs: 1

Navigating the New National Standards: PSIA-AASI National Team Head Coach Jeb Boyd walks you through the national standards' framework, including advice on how to use the assessment tools and performance guides.

\$20 | CEUs: 1

Exploring People Skills: PSIA-AASI National Team member Stephanie Wilkerson offers insight into how to create a learning environment specific to the needs of your students.

\$20 | CEUs: 1

FIRST CHAIR PODCASTS

Expand your professional knowledge with PSIA-AASI's First Chair Podcast, featuring interviews with industry stakeholders, PSIA-AASI National Team members, and other key educators.

BREITHORN DOWN

Lightweight down mid-layers optimized for warmth and packability. Featuring 800-fill ProDown™, certified to the Responsible Down Standard. Durable ripstop shell material and quilt-through construction. Standard fit.

GOOSE DOWN

THERMAL INSULATION

The North Face tests each lot of down at three stages of production for loft, moisture resistance, and ability to regain loft after compression. The fill power of goose down indicates two important features: warmth-to-weight ratio and compressibility, both critical to retaining warmth and promote comfort. The North Face products are insulated with goose down ranging from 550 to 900 fill, which represents the highest-quality down commercially available.

BENEFITS

- Superior warmth and comfort
- Lightweight insulation
- Increased loft than lesser-fill downs (900- and 800-fill only)

CLIMASENSE

Climasense™ is the company's multi-level product line of uniquely engineered garments with thermal-regulating (TR) technology. These Terramar base layers come in 3 different warmth levels and each has a unique function.

2.0

3.0

WARM

WARMER

1 2.0 Performance Baselayers

The ideal choice for most winter sport enthusiasts, these garments provide warmth in moderate to very cold conditions, and the thermo-regulating properties keep your body temperature consistent even as your activity level increases.

- a #18675 | Thermolator Half-Zip Top | M's S-XXL | Black | \$28
- b #18676 | Thermolator Pant | M's S-XL | Black | \$22
- c #18818 | Thermolator Three-Quarter Pant | M's S-XL | Black | \$20

FALL

Fall Line | \$86 **NEW/REDESIGNED**

Updated this year, all of the Fall Line styles now include a removable Bemberg lining – which allows for quick drying between on-hill days. This also changed the fit of the Fall Line, creating a more relaxed fit that is easier on and off. External seams promote dexterity and comfort. The soft leather shell resists moisture and aid breathability.

19016

Since the brand's inception in 1994, SPY Optic has supported ski and snowboard athletes with technology and styles that set the trends. Its trademarked Happy Lens technology increases clarity, sharpens focus, and accentuates changes in terrain while reducing eye strain.

LENS INFORMATION

Spy Optic approaches lens design like an artist, and technologies named Happy and Spectra deserve a deeper look. See below for more info about the lenses offered with the SPY sunglasses and goggles in this catalog. Each style is offered in other frame color and lens combinations through the SPY Optic Pro site at tiny.cc/ProOffers.

Happy™ Lens Technology – Spy sunglasses and goggles feature lenses with Happy technology.

The sun gives off rays that are both good and bad for your health and wellbeing. Revolutionary Happy lens tech lets in the good rays that help boost your mood and alertness and optimize color. Spectra in the lens name indicates a mirrored finish.

SPY SUNGLASSES

- ▶ **Happy Bronze:** An elevated bronze lens with a more subdued look than a mirror finish.
- ▶ **Happy Grey Green Polar Lens:** A revolutionary color-enhancing lens designed to boost your mood and alertness.
- ▶ **Happy Bronze Polar with Green Spectra Mirror Lens:** Mood-enhancing lens with color optimization, bronze base with a green-blue mirror.

SPY GOGGLES

- ▶ **Happy Gray Green with Black Spectra Mirror Lens:** The gray green base color optimizes color in bright conditions.
- ▶ **Happy LL Persimmon with Silver Spectra Mirror Lens:** Low-light persimmon is a bronze-brown lens that brings out definition.
- ▶ **Happy Rose with Dark Blue Spectra Mirror:** Rose-based blue lens, offering a relaxing tint on bright days.
- ▶ **Happy ML Rose with Silver Spectra Mirror Lens:** Classic persimmon tint is comfortable on eyes and effective in mixed light.
- ▶ **Happy Bronze with Silver Spectra Mirror:** A mood-enhancing bronze lens with a silver mirror finish.

SPY+ SUNGLASSES

Rocky | \$60 **NEW**

Inspired by the Rocky Mountains, with lightweight yet durable Grilamid frame construction and revolutionary Happy Lens tech. Medium/large fit.

Raider | \$69 **NEW**

A large field of view with huge scoop vents that prevent fogging. Medium/large fit.

#19602 | Monochrome Olive Frame, ML Rose with Silver Spectra Mirror Lens.

LENS INFORMATION

Scott Sports is a leader in the industry when it comes to lens technology. Here's more information about the lenses that come with the goggles we offer. Each style is offered in other frame color and lens combinations.

- **Light Sensitive Blue Chrome Lens:** Light-sensitive lenses use photo-chromatic technology to adapt automatically to sunlight intensity. These lenses react to light-changes in seconds. A great choice in all conditions.
- **Illuminator Blue Chrome Lens:** Ideal for low-light conditions, the Illuminator lens enhances contrast and clarity.
- **Enhancer Aqua Chrome Lens & Blue Enhancer Teal Chrome Lens:** The Enhancer lens has the perfect tint for mixed and light overcast conditions, allowing you to see every detail on the mountain.

SCOTT HELMET

SYMBOL 2 PLUS HELMET | \$84

Updated design with a lower profile. 360° Pure Sound ear pads and MIPS technology. S: 51-55cm, M: 55-59cm, L: 59-61cm.

Flat-top style for an active lifestyle. Medium fit.

#19597 | Black Matte Frame, Brown Fire Lens

Brecken Floatable | \$80 **NEW**

Comfortable, with a laidback style. Quality polarized lens and frame that floats.

#19598 | Black Red Matte Frame, Polarized Offshore Blue Lens

LENS INFORMATION

Bollé offers a wide range quality lenses, many suited for specific sport adventures.

Once you've selected some styles you like, look here to learn more about the lens offered in each frame. Each style is offered in other frame color and lens combinations through the Bollé Pro site at tiny.cc/ProOffers.

BOLLÉ SUNGLASSES

- ▶ **Bollé 100 Gun Lens:** Maximum protection from bright sun, allowing only 5% VLT.
- ▶ **Volt Offshore Polarized Lens:** A PC lens tuned for marine sports, 100% UV protection and a polarized filter to stop glare.
- ▶ **HD Polarized TNS Lens:** By infusing a specific red pigment into the HD polarized lenses, Bollé reinforces the wavelengths of the red color. This brings a higher level of contrast and improves depth perception, without altering the base tint of the lens.
- ▶ **Polarized Brown Fire Lens:** Ideal for sunny conditions, this brown lens amplifies color contrast and delivers superior visual definition.

BOLLÉ GOGGLES

- ▶ **Phantom+ Lens:** Light-adaptive lenses offer the best option any time, changing from light to dark with UV exposure.
- ▶ **Lemon Lens:** Ideal for low-light conditions, yellow lenses enhance depth perception for improved visibility.
- ▶ **Volt Ice Blue Lens:** The latest lens tech available, offering increased color contrast, ideal for sunny days.
- ▶ **Volt Ruby Lens:** A red tint over a pink lens with Volt lens technology, perfect for overcast and mixed weather days.

13 F4 Liquid Wax (Fluoro-Free) | \$12

F4 Universal All Temp liquid wax; easily applied to the base with a foam applicator and felt polisher. 100 ml.

#18209

14 **Universal Hydrocarbon Wax** | \$13

Economical wax for a wide range of conditions. 180 grams.
#17220

15 **Pro High Speed Wax (Fluoro-Free)**

Performance fluoro-free waxes ideal for working pros.
Sold in 60-gram blocks.

- **HS05 (temperature range 14-0°F):** The hardest wax in the HS line; ideal for cold conditions for all equipment.
- **HS06 (temperature range 21-10°F):** A very versatile wax that maintains durability and offers great performance on natural as well as artificial snow.
- **HS07 (temperature range 18-28°F):** A wax that performs great in normal winter conditions below the freezing point. Its hardness makes it convenient to work with and easy to get good results.
- **HS08 (temperature range 25-39°F):** An economic training and racing wax as well as base-prep wax for warm skis. Easy to melt and very easy to work with.

- a #19544 | HS05 14-0°F | \$24
- b #19545 | HS06 21-10°F | \$24
- c #19546 | HS07 28-18°F | \$24
- d #19547 | HS08 25-39°F | \$24

16 **Pure Performance Speed Wax (Fluoro-Free)**

Fine-tune performance with the specific wax for the current conditions. Each wax has its own strengths, so here are key facts to keep in mind.

- **PS05 (temperature range 14-0°F):** The hardest and most durable wax in the Swix line; ideal for cold conditions. 180-gram block.
- **PS06 (temperature range 21-10°F):** Highly durable and offers great performance in most snow conditions as well as on artificial and glacier conditions. 180-gram block.
- **PS07 (temperature range 18-28°F):** A wax that performs great in normal winter conditions below the freezing point. Its hardness makes it convenient to work with and easy to get good results. 180-gram block.
- **PS08 (temperature range 25-39°F):** An economic training and racing wax as well as base-prep wax for warm skis. Easy to melt and very easy to work with. 180-gram block.
- **PS10 (temperature range 32-50°F):** For use in the warmest conditions or to protect your bases while storing your skis in the off-season. 60-gram block.

- a #19548 | PS05 14-0°F | \$24
- b #19549 | PS06 21-10°F | \$24
- c #19550 | PS07 28-18°F | \$24
- d #19551 | PS08 25-39°F | \$24
- e #18552 | PS10 25-39°F | \$9

17 **6 Way Edge Tuner Kit** | \$39

Pocket-size file holder, 4 side-edge angles, 2 base-edge angles. Includes 80mm file, diamond stone, and abrasive polishing stone.

#19503

18 **Evo Pro Edge Tuner** | \$349

Electric side-edge sharpening tool. The circular diamond disc is adjustable in one-degree increments from 90 degrees to 85 degrees and backed by a steel spring, which ensures constant pressure regardless of stone wear. Includes fine diamond stone (installed); additional coarse and medium discs are available.

#18885

19 **Spare Disc for Evo Pro Edge Tuner**

Expand the tuning functionality of your Evo Pro Edge Tuner or purchase replacement discs. Available in four options:

- **Extra Fine** – Used as a super-fine polisher and hardener.
- **Fine (included with the Evo Pro Edger)** – A good overall grit for finishing and polishing.
- **Medium** – For general maintenance; ideal when more than a polish is needed.
- **Coarse** – Perfect for angle set-up on new skis or when changing the angle; also great for deburring when the edge is damaged.

- a #19043 | Extra Fine | \$68
- b #19044 | Fine | \$68
- c #19045 | Medium | \$68
- d #19046 | Coarse | \$68

#19613 | Red

Burton LTR Handle Bar

This valuable teaching aid dramatically decreases the learning curve for young shredders. Simply mount on the snowboard in place of the bindings, allowing the student to find balance on their own, with the freedom to step off if needed. Better than holding students' hands, while still giving the instructor the hands-on ability to control angle and speed.

#18831 | \$65

VIEW VIDEO

AASI and Burton Snowboards have partnered for 20 years to grow the sport of snowboarding. Now with Burton's Riglet Program and AASI's teaching methods, kids age 3-6 are turning into rock-star riders. Watch this video to learn more.

Case of 40 | \$32

BCA FLOAT 32 Avalanche Airbag 2.0 | \$379 NEW

The 15-liter BCA Float 32 Avalanche Airbag 2.0 not only creates buoyancy and decreases your burial depth, but it also protects your head and neck from trauma in an avalanche. BCA's next-generation Float 2.0 Air Cylinder (#19615) is nearly 30% smaller and 15% lighter than the Float 1.0 engine. All the Float 2.0 system elements sit entirely separate behind a zippered covering, freeing up valuable space in the main compartment for gear, a first-aid kit, and supplies.

#19614

BCA FLOAT 2.0 Air Cylinder (Empty) | \$130 NEW

The refillable Float compressed-air cylinder is the power and driving force behind the Float 2.0 avalanche airbag system. When the Float trigger is pulled, the Float 2.0 activates the release of 2,800-3,000 psi (207 bar) of compressed air, inflating the airbag. Always make sure your cylinder is full and connected correctly before heading out. Nearly 30 percent smaller and 15 percent lighter than the Float 1.0 engine, the Float 2.0 cylinder ensures a rapid fill when activated. Only compatible with Float 2.0 systems.

#19615

Tracker 4 Avalanche Rescue Set | \$299

Tracker 4 avalanche transceiver, extendable B-1 EXT avalanche shovel, and quick-deploying Stealth 270 avalanche probe.

#19526

Stealth 240 Probe Pole | \$30

Aluminum construction, fast assembly, and laser-etched depth markings. 240cm.

#19038

Stealth 300 Probe Pole | \$56

300cm probe for professionals and those traveling in deep snowpack. Aluminum.

#19039

Dozer 1-T Shovel | \$36

Redesigned blade construction is lighter and more durable. Fit's in most packs.

#19087

Tracker 4 Avalanche Transceiver | \$249

Bombproof design with no-nonsense functionality. Easy-to-use LED screen, over-molded case for long-term durability, includes a harness and batteries.

#19525

BCA Link 2.0 2-Way Radio | \$124

Two watts of power for more usable range. The Smart Mic grill is impervious to packing with snow, and the on/off channel selection dial switch is protected from inadvertent channel changing. Built-in rechargeable lithium-ion battery with battery-percentage power display.

#19037

Dozer 3-D Shovel | \$45

BCA's largest blade size, this hard-working shovel features a D-grip handle for industrial use.

#19088
